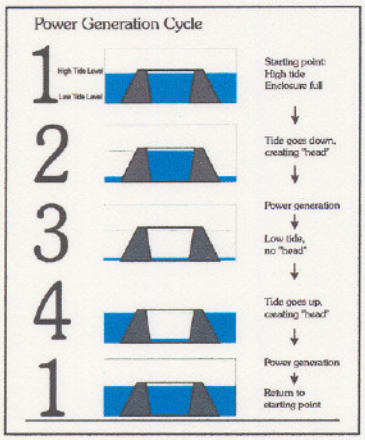
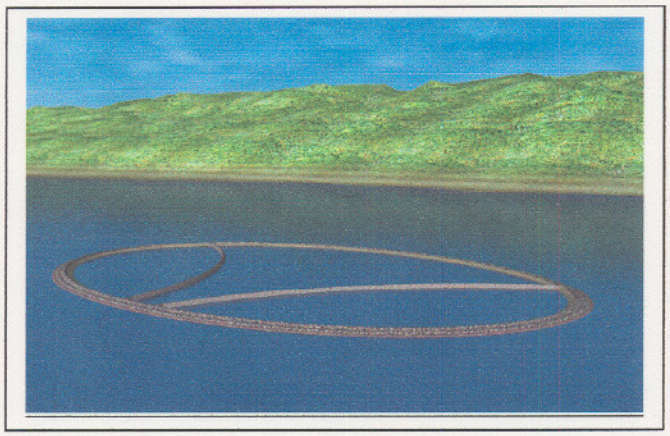
TIDAL ELECTRIC, INC.

Three Cell Tidal Lagoon

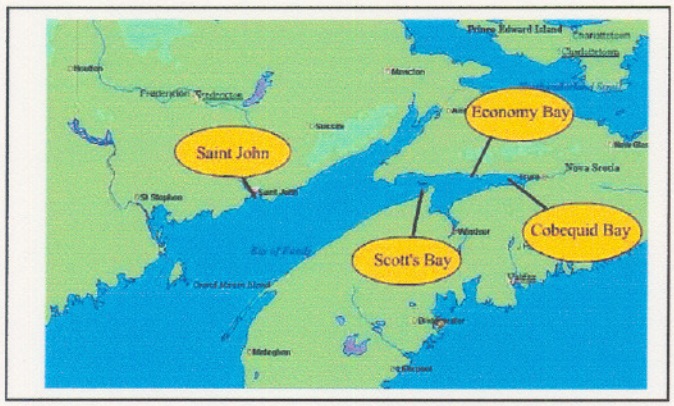




Target Sites in Canada

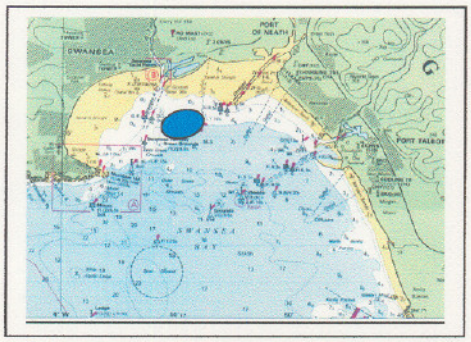
Saint John (60 MW)
Scotts Bay (300 MW)
Economy Bay (717 MW)
Cobequid Bay (125 MW)

Canada's Bay of Fundy has the largest tidal ranges in the world. Preliminary investigations reveal numerous optimal sites.



Swansea Bay

Swansea Bay in Wales has been identified as the first tidal lagoon project in the UK. At 60 MW, its power costs are calculated to be about 3p or (5 cents US.)



North Wales

The 432 MW North Wales project is designed to act as a barrier to prevent further erosion of the vulnerable coastline, the scene of devastating floods in 1990.
