SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

- (a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;
- (b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and
- (c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. ^{1/}

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

- (1) The Rules for the Interpretation of the Harmonized System,
- (2) The legal notes to the sections and chapters, and
- (3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

^{1/} For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

- (a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;
- (b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and
- (c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

<u>Present TSUSA No.</u>	<u>Post MTN Rate</u>	<u>Estimated Imports (\$1,000)</u>	<u>Proposed TSUSA No.</u>	<u>Proposed Rate</u>
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

<u>Present TSUSA No.</u>	<u>Post MTN Rate</u>	<u>1980 Imports (\$1,000)</u>	<u>\$ Duty</u>	<u>Proposed TSUSA No.</u>	<u>Proposed Rate</u>
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

GENERAL LEGAL NOTES

Page 1

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth, product, or manufacture of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession, of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession, may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --
- (a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;
 - (b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);
 - (c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and
 - (d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.
5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.
6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:
- (a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.
 - (b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.
7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:
- (i) sampling,
 - (ii) verification of packing lists or other documents filed at the time of entry, or
 - (iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.
- (b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.
- (c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --
- (i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and
 - (ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.
- (d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --
- (i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;
 - (ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and
 - (iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.
- (e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

 - (v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

Legal Notes

1. Except where the context otherwise requires, the headings of this chapter apply only to--
 - (a) Separate chemically defined organic compounds, whether or not containing impurities;
 - (b) Mixtures of two or more isomers of the same organic compound (whether or not containing impurities), except mixtures of acyclic hydrocarbon isomers (other than stereoisomers), whether or not saturated (chapter 27);
 - (c) The products of headings 2936 to 2939 or the sugar ethers and sugar esters, and their salts, of heading 2940 or the products of heading 2941, whether or not chemically defined;
 - (d) Products mentioned in (a), (b), or (c) above dissolved in water;
 - (e) Products mentioned in (a), (b), or (c) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product suitable for a specific use rather than for general use;
 - (f) The products mentioned in (a), (b), (c), (d), or (e) above with an added stabilizer necessary for their preservation or transport;
 - (g) The products mentioned in (a), (b), (c), (d), (e), or (f) above with an added antidusting agent or a coloring or odoriferous substance added to facilitate their identification or for safety reasons, provided that the additions do not render the product suitable for a specific use rather than for general use;
 - (h) The following products, diluted to standard strengths, for the production of azo dyes: diazonium salts, couplers used for these salts, and diazotizable amines and their salts.
2. This chapter does not cover--
 - (a) Products of heading 1504 or glycerol (heading 1520);
 - (b) Ethyl alcohol (heading 2207 or 2208);
 - (c) Methane and propane (heading 2711);
 - (d) The compounds of carbon mentioned in legal note 2 to chapter 28;
 - (e) Urea (heading 3102 or 3105, as the case may be);
 - (f) Coloring matter of vegetable or animal origin (heading 3203), synthetic organic coloring matter, synthetic organic products of a kind used as fluorescent brightening agents or as luminophores (heading 3204), and dyes or other coloring matter put up in forms or packings for retail sale (heading 3212);
 - (g) Enzymes (heading 3507);
 - (h) Metaldehyde, hexamethylenetetramine and similar substances put up in forms (for example, tablets, sticks or similar forms) for use as fuels, and liquid or liquefied-gas fuels of a kind used for cigarette or similar lighters in containers of a capacity not exceeding 300cm³ (heading 3606);
 - (ij) Products put up as charges for fire-extinguishers or put up in fire-extinguishing grenades, of heading 3813; ink removers put up in packings for retail sale, of heading 3823; or
 - (k) Optical elements, for example, of ethylenediamine tartrate (heading 9001).
3. Products which could be included in two or more of the headings of this chapter are to be classified in the latest of those headings.
4. In headings 2904 to 2906, 2908 to 2911, and 2913 to 2920, any reference to halogenated, sulfonated, nitrated, or nitrosated derivatives includes a reference to any combinations of these derivatives, such as sulfohalogenated (including sulfonyl halides), nitrohalogenated, nitrosulfonated, or nitrosulfohalogenated derivatives.

Nitro or nitroso groups are not to be taken as nitrogen-functions for the purpose of heading 2929.

For the purposes of headings 2911, 2912, 2914, 2918, and 2922, "oxygen function" is to be restricted to the functions (the characteristic organic oxygen-containing groups) referred to in headings 2905 to 2920.

5. (a) The esters of acid-function organic compounds of subchapters I to VII with organic compounds of these subchapters are to be classified with that compound which is classified in the heading placed last in the subchapters.
 - (b) Esters of ethyl alcohol or glycerol with acid-function organic compounds of subchapters I to VII are to be classified with the corresponding acid-function compounds.
 - (c) Subject to legal note 1 to section VI and legal note 2 to chapter 28:
 - (1) Inorganic salts of organic compounds such as acid-, phenol-, or enol-function compounds or organic bases, of subchapters I to X or heading 2942, are to be classified in the heading appropriate to the organic compound; and
 - (2) Salts formed between organic compounds of subchapter I to X or heading 2942 are to be classified in the heading appropriate to the base or to the acid (including phenol- or enol-function compounds) from which they are formed, whichever occurs latest in the chapter.
 - (d) Metal alcoholates are to be classified with the corresponding alcohols except in the case of ethanol and glycerol (heading 2904).
 - (e) Halides of carboxylic acids are to be classified with the corresponding acids.
6. The compounds of headings 2930 and 2931 are organic compounds the molecules of which contain, in addition to atoms of hydrogen, oxygen, or nitrogen, atoms of other nonmetals or of metals (such as sulfur, arsenic, mercury, or lead) directly linked to carbon atoms.
 Heading 2930 (organo-sulfur compounds) and heading 2931 (other organo-inorganic compounds) do not include sulfonated or halogenated derivatives (including compound derivatives) which, apart from hydrogen, oxygen, and nitrogen, only have directly linked to carbon the atoms of sulfur or of a halogen which give them their nature of sulfonated or halogenated derivatives (or compound derivatives).
 7. Headings 2932, 2933, and 2934 do not include epoxides with a three-membered ring, ketone peroxides, cyclic polymers of aldehydes or of thioaldehydes, anhydrides of polybasic carboxylic acids, cyclic esters of polyhydric alcohols or phenols with polybasic acids, and imides of polybasic acids.
 These provisions apply only when the ring-position hetero-atoms are those resulting solely from the cyclizing function or functions here listed.
 8. Within any one heading of this chapter, derivatives of a chemical compound (or group of chemical compounds) are to be classified in the same subheading as that compound (or group of compounds) provided that they are not more specifically covered by any other subheading and that there is no residual subheading "Other" in the series of subheadings concerned.

Additional U.S. Legal Notes

1. For the purposes of this chapter--
 - (a) The term "odoriferous compounds" means compounds which are chiefly used in the manufacture of perfumery, cosmetics, or toilet preparations, or otherwise for the purpose of scenting or of counteracting undesirable odors, but which themselves are not marketable as perfumery, cosmetics, or toilet preparations.
 - (b) The term "plasticizers" means compounds which may be incorporated into a material (usually a plastic, resin material, or an elastomer) to increase its softness, flexibility, workability, or distensibility.
 - (c) The term "drugs" means compounds having anesthetic, prophylactic, or therapeutic properties and used as an active ingredient in a medicament.
 - (d) The term "pesticides" means compounds, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.
2. Salts of organic acids (including phenols) with organic bases and salts of organic bases with inorganic acids are to be classified under the same heading as the organic acid or base; salts of organic acids with organic bases are to be classified either under the heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free base, whichever is listed later.
