NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF
CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES
CONVERTED INTO THE NOMENCLATURE STRUCTURE OF
THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

- Volume 8 Chapter 1: Live animals
- Chapter 2: Meat and edible meat offal
- Chapter 3: Fish and crustaceans, molluscs and other aquatic invertebrates
- Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
- Chapter 5: Products of animal origin, not elsewhere specified or included
- Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage
- Chapter 7: Edible vegetables and certain roots and tubers
- Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits
- Volume 9 Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates
- Volume 10 Chapter 20: Preparations of vegetables, fruit, nuts or other parts of plants
- Volume 11 Chapter 22: Beverages, spirits and vinegar
- Chapter 23: Prepared animal feed; residues and waste from the food industries

- Chapter 24: Tobacco and manufactured tobacco substitutes
- Volume 12 Chapter 26: Ores, slag and ash
- Volume 13 Chapter 28: Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements, or of isotopes
- Chapter 29: Organic chemicals
- Volume 14 Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations
- Chapter 37: Photographic films and materials
- Volume 15 Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted
- Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted
- Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags
- Volume 16 Chapter 74: Copper and articles thereof
- Chapter 75: Nickel and articles thereof
- Chapter 76: Aluminum and articles thereof
- Chapter 78: Lead and articles thereof
- Chapter 79: Zinc and articles thereof
- Chapter 80: Tin and articles thereof
- Chapter 81: Other base metals; cermets; articles thereof
- Volume 17: Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof
- Chapter 91: Clocks and watches and parts thereof
- Chapter 92: Musical instruments; parts and accessories of such articles
- Volume 4-S Chapter 52: Cotton

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

- (a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;
- (b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and
- (c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Kenneth R. Mason
Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

- (1) The Rules for the Interpretation of the Harmonized System,
- (2) The legal notes to the sections and chapters, and
- (3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

- Chapter 1: Live animals
- Chapter 2: Meat and edible meat offal
- Chapter 3: Fish and crustaceans, molluscs and other aquatic invertebrates
- Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
- Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

- Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage
- Chapter 7: Edible vegetables and certain roots and tubers
- Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits
- Chapter 9: Coffee, tea, mate and spices
- Chapter 10: Cereals
- Chapter 11: Products of the milling industry; malt and starches; gluten; inulin
- Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder
- Chapter 13: Lacs; gums, resins and other vegetable saps and extracts
- Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Prepared animal feed; residues and waste from the food industries

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulfur; earths and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

- Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements, or of isotopes
- Chapter 29: Organic chemicals
- Chapter 30: Pharmaceutical products
- Chapter 31: Fertilizers
- Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; inks
- Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations
- Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"
- Chapter 35: Albuminoidal substances; glues; enzymes
- Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations
- Chapter 37: Photographic films and materials
- Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

- Chapter 39: Plastics and articles thereof
- Chapter 40: Rubber and articles thereof

- VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)
- Chapter 41: Raw hides and skins (other than furskins) and leather
- Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)
- Chapter 43: Furskins and artificial fur; manufactures thereof
- IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork
- Chapter 44: Wood and articles of wood; wood charcoal
- Chapter 45: Cork and articles of cork
- Chapter 46: Manufactures of straw, of esparto, or of other plaiting materials; basketware and wickerwork
- X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof
- Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard
- Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard
- Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans
- XI. Section XI Textiles and Textile Articles
- Chapter 50: Silk
- Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric
- Chapter 52: Cotton

- Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn
- Chapter 54: Man-made filaments
- Chapter 55: Man-made staple fibers
- Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof
- Chapter 57: Carpets and other textile floor coverings
- Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery
- Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use
- Chapter 60: Knitted or crocheted fabrics
- Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted
- Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted
- Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. Section XII Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

- Chapter 64: Footwear, gaiters and the like; parts of such articles
- Chapter 65: Headgear and Parts thereof
- Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof
- Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

- XIII. Section XIII Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware
- Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials
- Chapter 69: Ceramic products
- Chapter 70: Glass and glassware
- XIV. Section XIV Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewellery; Coin
- Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin
- XV. Section XV Base Metals and Articles of Base Metal
- Chapter 72: Iron and steel
- Chapter 73: Articles of iron or steel
- Chapter 74: Copper and articles thereof
- Chapter 75: Nickel and articles thereof
- Chapter 76: Aluminum and articles thereof
- Chapter 78: Lead and articles thereof
- Chapter 79: Zinc and articles thereof
- Chapter 80: Tin and articles thereof
- Chapter 81: Other base metals; cermets; articles thereof
- Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof
- Chapter 83: Miscellaneous articles of base metal

XVI. Section XVI Machinery and Mechanical Appliances; Electrical and Electronic Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. Section XVII Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. Section XVIII Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. Section XIX Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX.. Section XX Miscellaneous Manufactured Articles

- Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings
- Chapter 95: Toys, games and sports requisites; parts thereof
- Chapter 96: Miscellaneous manufactured articles
- Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Telecommunications transmissions have been added to rule 5 to explicitly exclude them from entry requirements. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the

draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

- (a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

<u>Present TSUSA No.</u>	<u>Post MTN Rate</u>	<u>Estimated Imports (\$1,000)</u>	<u>Proposed TSUSA No.</u>	<u>Proposed Rate</u>
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

<u>Present TSUSA No.</u>	<u>Post MTN Rate</u>	<u>1980 Imports (\$1,000)</u>	<u>\$ Duty</u>	<u>Proposed TSUSA No.</u>	<u>Proposed Rate</u>
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	<u>4,718</u>	<u> </u>	8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

TARIFF SCHEDULE OF THE UNITED STATES ANNOTATED

(Converted to the Harmonized System and reflecting final MTN concession rates of duty)

GENERAL LEGAL NOTES

1. Tariff Treatment of Imported Articles. All articles (including vessels and electricity) imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note 6 of chapter 91 and except as provided in legal note , articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) executed securities and similar executed evidences of value, and

(d) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

TARIFF SCHEDULE OF THE UNITED STATES ANNOTATED

(Converted to the Harmonized System and reflecting final MTN concession rates of duty)

Page 4

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

GENERAL STATISTICAL NOTES

Page 5

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unloading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

Legal Notes

1. This chapter does not cover--
 - (a) Articles of a kind used in machines, appliances, instruments or apparatus, of vulcanized rubber other than hard rubber, of heading 4017, of leather or of composition leather, of heading 4204, or of textile material (heading 5917);
 - (b) Refractory goods of heading 6903; laboratory, chemical or industrial wares of heading 6909;
 - (c) Glass mirrors, not optically worked, of heading 7009, and mirrors of base metal or of precious metal, not being optical elements, of heading 8306 or chapter 71;
 - (d) Articles falling within heading 7007, 7008, 7011, 7014, 7015 or 7017;
 - (e) Parts of general use, as defined in legal note 2 to section XV, of base metal (section XV) or similar articles of plastics (which are classified in chapter 39);
 - (f) Pumps incorporating measuring devices, of heading 8413; weight-operated counting and checking machinery, and separately imported weights for balances (heading 8423); lifting and handling machinery of chapter 84; fittings for adjusting work or tools on machine-tools, of heading 8466, including fittings with optical devices for reading the scale (for example, "optical" dividing heads) but not those which are in themselves essentially optical instruments (for example, alignment telescopes); calculating machines, of heading 8470; valves and other appliances of heading 8481;
 - (g) Searchlights and spotlights, of a kind used on motor vehicles, of heading 8512; cinematic sound recorders, reproducers and re-recorders, operating solely by a magnetic process (headings 8519 and 8520); magnetic sound-heads (heading 8522); radar apparatus, radio navigational aid apparatus and radio remote control apparatus (heading 8526);
 - (h) Searchlights and spotlights of heading 9405;
 - (ij) Articles of chapter 95;
 - (k) Capacity measures, which are to be classified according to the material of which they are made; or
 - (l) Spools, reels or similar supports (which are to be classified according to their constituent material, for example, in heading 3924 or section XV).
2. Subject to legal note 1 above parts and accessories for machines, apparatus, instruments or articles of this chapter are to be classified according to the following rules:
 - (a) Articles of a kind described in any of the headings of this chapter or of chapters 84, 85 and 92 (other than headings 8485, 8548 and 9033) are in all cases to be classified in their respective headings;
 - (b) Unless the context requires otherwise, other parts and accessories, if suitable for use solely or principally with a particular kind of machine, instrument or apparatus falling within the same heading (including a machine, instrument or apparatus falling within heading 8479, 8543, 9010, 9013 or 9031) are to be classified with the machines, instruments or apparatus of that kind;
 - (c) All other parts and accessories are to be classified in heading 9033.
3. Heading 9005 does not apply to telescopic sights for fitting to weapons, periscopic telescopes for fitting to submarines or tanks, or to telescopes for machines, appliances, instruments or apparatus of this chapter or section XVI; such telescopic sights and telescopes are to be classified in heading 9013.
4. Measuring or checking optical instruments, appliances or machines which, but for this legal note, could be classified both in heading 9013 and in heading 9031 are to be classified in heading 9031.

Additional U.S. Legal Notes

1. For the purposes of headings 9001 and 9002, the term "optically worked" refers to glass the surface of which has been polished in order to produce the required optical properties.
2. Heading 9002 does not cover mounted optical elements which are themselves separate instruments or apparatus such as spectacles, medical or dental mirrors and hand magnifying glasses.
3. For the purposes of this chapter, the term "electrical" refers to instruments, appliances, apparatus and machines, the operation of which depends on an electrical phenomenon which varies according to the factor to be ascertained.
4. For the purposes of this chapter, the terms "optical appliances" and "optical instruments" refer only to those appliances and instruments which incorporate one or more optical elements, but do not include any appliances or instruments in which the incorporated optical element or elements are solely for viewing a scale or for some other subsidiary purpose.

Legal Notes

1. For the purposes of the chapter, the term "watch movements" means devices regulated by a balance wheel and hairspring, quartz crystal or any other system capable of determining intervals of time, with a display or a mechanical system to which a mechanical display can be incorporated. Such watch movements shall not exceed 12 mm in thickness and 50 mm in width, length or diameter.
2. Headings 9108, 9109 and 9110 do not apply to articles of heading 8412 constructed to work without an escapement.
3. This chapter does not cover parts of general use defined in legal note 2 to section XV, of base metal (section XV), nor similar goods of plastics (chapter 39) or of precious metal or metal clad with precious metal (generally heading 7119). The chapter also excludes weights, clock or watch glasses, watch chains, ball bearings or bearing balls. Clock or watch springs are to be classified as clock or watch parts (heading 9114).
4. Except as provided in legal notes 2 and 3, movements and other parts suitable for use both in clocks or watches and in other articles (for example, precision instruments) are to be classified in this chapter.

Additional U.S. Legal Notes

1. For the purposes of this chapter--
 - (a) The term "watches" embraces timepieces (including timepieces having special features, such as chronographs, calendar watches, and watches designed for use in skydiving) of a kind for wearing or carrying on the person whether or not the movement contained therein conforms to the definition of "watch movements" in legal note 1, above.
 - (b) The term "cases" embraces inner and outer cases, containers, and housings for movements, together with parts or pieces, such as, but not limited to, rings, feet, posts, bases, and outer frames, and any auxiliary or incidental features, which (with appropriate movements) serve to complete the watches, clocks, time switches, and other apparatus provided for in this chapter.
 - (c) The term "jewels" includes substitutes for jewels.
 - (d) The term "clock movements" means devices regulated by a balance wheel and hairspring, quartz crystal or any other system capable of determining intervals of time, with a display or a system to which a mechanical display can be incorporated. Such clock movements shall either exceed 12 mm in thickness or 50 mm in width, length or diameter, or both.
 - (e) The term "complete watch or clock movements, unassembled or partly assembled (movement sets)" refers to sets which consist of all parts necessary to assemble a watch or clock movement, except that for movements having mechanical displays the set may or may not include the dial and hands.
 - (f) The term "incomplete watch or clock movements, assembled" refers to--
 - (i) mechanical movements which are mounted but lack certain parts other than the dial, hands or winding spindle (e.g., the escapement or the barrel bridge),
 - (ii) non-mechanical movements with mechanical displays which are mounted but lack certain parts other than the dial, hands, setting spindle or battery (e.g., the motor), or
 - (iii) non-mechanical movements with optoelectronic displays which are mounted but lack certain parts other than the battery (e.g., the display).
 - (g) The term "rough watch or clock movements" refers to sets of unassembled parts for the assembly of watch or clock movements of a kind constructed to work with an escapement. These sets do not include escapement, balance wheel and hairspring or other regulating device, mainspring, dial or hands; they therefore consist mainly of the base plate (or any additional plates), bridges, train, motion work, winding and setting mechanism and regulator. These sets may be entered with or without a barrel. Each element, intended for use as it is, may itself consist of one simple piece or of several parts fitted inseparably together, but such elements may not themselves be assembled to each other.
2. Watch straps, watch bands and watch bracelets entered with wrist watches, whether or not attached, are classified with the watch in headings 9101 and 9102. When entered separately, watch straps, watch bands and watch bracelets are classified in heading 9113.
3. Batteries or accumulators entered with battery or accumulator powered watches or clocks, or with the complete, assembled movements therefor, and intended for use therewith, are classifiable under the provision for the watch, clock or movement. Similarly, batteries or accumulators entered with a complete watch or clock movement, unassembled or partly assembled (movement set) or with an incomplete watch or clock movement, assembled, and intended for use therewith, are classifiable under the provision for such movement. Batteries or accumulators are otherwise classifiable in heading 8506 or 8507, whether or not suitable for use with watches or clocks.
4. The additional duty for adjustments to watch movements applies to each adjustment of whatever kind (treating adjustment to temperature as two adjustments), in accordance with the marking as hereinafter provided for.

5. Special Marking Requirements: Any movement, case, or dial provided for in this chapter, whether imported separately or attached to an article provided for in this chapter, shall not be permitted to be entered unless conspicuously and indelibly marked by cutting, die-sinking, engraving, or stamping, as specified below:
- (a) Watch movements shall be marked on one or more of the bridges or top plates (or on the substrate or main circuit board or its equivalent of a watch movement that does not possess bridges or top plates) to show--
 - (i) the name of the country of manufacture,
 - (ii) the name of the manufacturer or purchaser;
 - (iii) in words, the number of jewels, if any, serving a mechanical purpose as frictional bearings; and
 - (iv) in words, the number and classes of adjustments, or, if unadjusted, the word "unadjusted."
 - (b) Clock movements shall be marked on the most visible part of the front or back plate (or on the substrate or main circuit board or its equivalent of a clock movement that does not possess bridges or top plates) to show--
 - (i) the name of the country of manufacture,
 - (ii) the name of the manufacturer or purchaser, and
 - (iii) the number of jewels, if any.
 - (c) Watch cases shall be marked on the inside or outside of the back cover to show--
 - (i) the name of the country of manufacture, and
 - (ii) the name of the manufacturer or purchaser.
 - (d) Clock cases and other cases provided for in this chapter shall be marked on the most visible part of the outside of the back to show the name of the country of manufacture; and
 - (e) Watch and clock dials and faceplates for watches or clocks with opto-electronic displays shall be marked to show the name of the country of manufacture.
6. Products of Insular Possessions.--
- (a) Except as provided in paragraph (b) of this legal note, any article provided for in this chapter which is the product of an insular possession of the United States outside the customs territory of the United States and which contains any foreign component shall be subject to duty--
 - (i) at the rates set forth in column numbered 1, if the countries of origin of more than 50 percent in value of the foreign components are countries to products of which column numbered 1 rates apply, and
 - (ii) at the rates set forth in column numbered 2, if the countries of origin of 50 percent or more in value of the foreign components are countries to products of which column numbered 2 rates apply.
 - (b) If the requirements for free entry set forth in general legal note 3(a) are complied with, watches (provided for in headings 9101 and 9102) and watch movements (provided for in heading 9108) which are the product of the Virgin Islands, Guam, or American Samoa and which contain any foreign component may be admitted free of duty, but the total quantity of such articles entered free of duty during each calendar year shall not exceed a number equal to 1/9 of the apparent United States consumption of watch movements during the preceding calendar year (as determined by the United States International Trade Commission (USITC)), of which total quantity--
 - (i) not to exceed 87.5 percent shall be the product of the Virgin Islands,
 - (ii) not to exceed 8.33 percent shall be the product of Guam, and
 - (iii) not to exceed 4.17 percent shall be the product of American Samoa.
 - (c) On or before April 1 of each calendar year, the USITC shall determine the apparent United States consumption of watch movements during the preceding calendar year, shall report such determination to the Secretary of the Treasury, the Secretary of the Interior, and Secretary of Commerce, and shall publish such determination in the Federal Register, together with the number of watches and watch movements which are the product of the Virgin Islands, Guam, and American Samoa which may be entered free of duty under paragraph (b) during the calendar year.
 - (d) The Secretary of the Interior and the Secretary of Commerce, acting jointly, shall allocate on a fair and equitable basis among producers of watches and watch movements located in the Virgin Islands, Guam, and American Samoa the quotas for each calendar year provided by paragraph (b) for articles which are the product of the Virgin Islands, Guam, and American Samoa, respectively. Allocations made by the Secretaries shall be final. The Secretaries are authorized to issue such regulations as they determine necessary to carry out their duties under this paragraph.

Legal Notes

1. This chapter does not cover:

- (a) Parts of general use, as defined in legal note 2 to section XV, of base metal (section XV), or similar articles of plastics (chapter 39);
- (b) Microphones, amplifiers, loudspeakers, headphones, switches, stroboscopes and other accessory instruments, apparatus or equipment of chapter 85 or 90, for use with but not incorporated in or housed in the same cabinet as instruments of this chapter;
- (c) Toy instruments and apparatus (heading 9503);
- (d) Brushes for cleaning musical instruments (heading 9603);
- (e) Collectors' pieces or antiques (heading 9705 or 9706); or
- (f) Spools, reels or similar supports (which are to be classified according to their constituent material; for example, heading 3924, section XV).

2. Bows and sticks and similar devices used in playing the musical instruments of headings 9202 or 9206 presented with such instruments in numbers normal thereto and clearly intended for use therewith, are to be classified in the same heading as the relative instruments.

Perforated music rolls (heading 9209) presented with an instrument are to be treated as separate articles and not as forming a part of such instrument.

Additional U.S. Legal Notes

- 1. For the purposes of this chapter, the term "brass wind instruments" refers to wind instruments of the "cupped-mouthpiece family" such as, but not limited to, trumpets, tubas, brass horns, sousaphones, bugles, French horns, cornets, flugelhorns, and saxhorns.
- 2. For the purposes of this chapter, the term "woodwind instruments" refers to wind instruments, usually sounded with reeds, and includes, but is not limited to, clarinets, oboes, bassoons, English horns, flutes, recorders, fifes, flageolets, piccolos, saxophones, and sarrusophones.
