FOREWORD

This publication contains the semi-annual update of statistical tables originally provided in the Commission's report on the Multifiber Arrangement, 1973 to 1980, Volume II, USITC Publication 1131, published in March 1981.

On April 1, 1985, the United States had bilateral agreements with 32 countries to control imports of textiles and apparel. This report provides data on U.S. imports from these countries for the years 1980 through 1984, arrayed by country, in terms of the cotton, wool, and manmade fiber quota categories used in administering the Multifiber Arrangement (MFA).

Detailed information on the history, current status, and administration of the MFA may be found in the The Multifiber Arrangement, 1980-84, U.S.I.T.C. publication 1693, May 1985.

Footnotes

1/ Detailed information on the current limits on individual categories may be obtained from the U.S. Department of State. Limitations of imports for non-participants in the MFA--Barbados, Costa Rica, Taiwan, Mauritius, Panama, and Spain--were established under authority of sec. 204 of the Agricultural Act of 1956. All others are under the authority of the MFA. Agreements with four countries--Macau, Pakistan, the Philippines, and Poland--have overall aggregate limits which are shown in this table. For all other countries, the figure shown represents the sum of limits established on specified categories.

2/ The countries listed in this table are those which had actual control levels on a specified category or categories under bilateral agreements during January-April 1, 1985. Jamaica, which is a party to a bilateral with the United States providing only for consultations, is not included.

An agreement with Brazil terminated on March 31, 1985. When a new agreement was not signed, the United States unilaterally imposed limits on exports from Brazil until a new agreement is concluded.

3/ Terms of a new agreement have been concluded but not signed as of June 25, 1985. A six-month extension is in effect pending the approval of the agreement which would be effective until December 31, 1989; the extension applies specific limits to 16 MFA categories.

4/ Categories 445 and 446; imports cannot exceed 2.2 million SYE during 9/29/82-9/28/85.

5/ Wool and manmade-fiber items only.

6/ Cotton items only.

7/ 2/1/85 for category 410 and 1/3/85 for categories 435 and 444.

1/ Beginning in 1982, consumption of non-textile glass fiber (such as that used in insulation and other building materials) is not included. The quantity of such fiber has been sharply increasing in recent years, amounting to about 1.0 billion pounds per year.

2/ 1984 data partially estimated by USITC from statistics of the U.S. Department of Agriculture.
