COMMISSIONERS

Don E. Newquist, Chairman

Anne E. Brunsdale, Vice Chairman

David B. Rohr

Carol T. Crawford

Janet A. Nuzum

Peter S. Watson

Office of Operations
Charles W. Ervin, Director

Office of Industries
Robert A. Rogowsky, Director

This report was prepared principally by

Elizabeth R. Nesbitt
Project Leader

Aimison Jonnard
Edward Matusik
David Michels
James Raftery
Office of Industries

David Beck
Office of Tariff Affairs and Trade Agreements

With assistance from
Paul Daniels
James Gill
Office of Information Resources Management

Under the direction of
John J. Gersic, Chief
Energy & Chemicals Division
and
Edmund D. Cappuccilli, Chief
Energy, Petroleum, Benzenoid Chemicals, and
Rubber and Plastics Branch
Energy & Chemicals Division

Additional assistance provided by
Brenda Carroll and Keith Hipp

Address all communications to
Kenneth R. Mason, Secretary to the Commission
United States International Trade Commission
Washington, DC 20436

PREFACE

This report is the first of two interim reports to the public pertaining to Commission investigation No. 332-322, entitled Certain Pharmaceuticals and Intermediate Chemicals: Identification of Applicable 6-Digit HS Subheadings for Products Covered by the Proposed Uruguay Round Pharmaceutical Agreement. The investigation was instituted following receipt of a letter from the United States Trade Representative (USTR) on January 27, 1992, requesting that the Commission conduct an investigation under section 332(g) of the Tariff Act of 1930 (see appendix A for a copy of the USTR's request). The USTR asked that the Commission make its work available to the USTR and the public on a flow basis.

The purpose of the investigation is to provide the USTR with a report listing the 6-digit Harmonized Commodity Description and Coding System (HS) subheadings for those pharmaceuticals having an International Non-proprietary Name (INN) and certain intermediate chemical products (used primarily in the production of pharmaceuticals) to be covered under the proposed "zero-for-zero" initiative on pharmaceuticals. This initiative is currently being negotiated under the Uruguay Round market access negotiations. The Commission was also asked to identify each instance where there is a known difference in opinion among countries on the classification of a product. USTR has requested the Commissioner of the U.S. Customs Service (Customs) to provide Commission staff with any necessary technical assistance. The USTR asked the Commission to submit its report by June 1, 1992.

As indicated in the Commission's notice of institution of investigation, reproduced in appendix B of this report as published in the Federal Register, the Commission plans to make available two interim reports to the public. Each interim report will contain a listing of the classifications completed by that phase of the investigation. These preliminary 6-digit HS classifications were derived on the basis that the chemical names provided represented separate chemically defined compounds. No public hearing will be held in connection with this investigation. However, interested parties are requested to submit written statements to the Commission regarding any discrepancies between their current classifications for the chemicals under consideration and the classifications presented by the Commission. The deadline for submissions regarding this first interim report is close of business (5:15 pm) on March 27, 1992 (see appendix B for more information). Proof of such classification discrepancies are requested either in the form of official rulings provided by the U.S. Customs Service (Customs) or in the form of copies of prior communications with Customs on this issue. The Commission will work with Customs personnel to resolve any classification discrepancies presented by interested parties. It should be noted that the classifications presented in the Commission's report(s) are not intended to be and will not be binding upon the Customs Service and should not be considered formal or informal rulings or advice.

**APPENDIX A
COPY OF THE LETTER OF REQUEST
FROM THE
UNITED STATES TRADE REPRESENTATIVE**

ID

THE UNITED STATES TRADE REPRESENTATIVE
RECEIVED Executive Office of the President
OFFICE OF INDUSTRIES Washington, D.C. 20506

98 JUN 23 AM 9:44

1670

The Honorable Don E. Newquist
Chairman
U.S. International Trade Commission
500 E Street SW
Washington, D.C. 20436

92

JAN 27

NVF

Dear Chairman Newquist:

An important element in the Uruguay Round market access negotiations is the U.S. "zero-for-zero" initiative. This initiative provides for reciprocal duty-free treatment among major trading partners in several product sectors. The pharmaceuticals sector is one of the most promising in this initiative. To successfully conclude the agreement on pharmaceuticals, however, technical assistance is urgently needed from the Commission and the U.S. Customs Service.

The pharmaceuticals agreement contemplates providing duty-free treatment for all pharmaceutical products having an International Nonproprietary Name (INN) assigned by the World Health Organization, the salts and esters of those products, and specified intermediate chemicals used principally in the production of pharmaceuticals. Currently about 7,000 pharmaceuticals have an INN.

For reasons of international transparency, and to facilitate the implementation and monitoring of the agreement, it is intended that all INN products covered by the agreement will be listed in an annex to the agreement, together with the applicable 6-digit subheading of the Harmonized System (HS) in which each of the products is classified. It is in this area that the technical expertise of the staffs of the Commission and the Customs Service is required.

Under authority delegated by the President, pursuant to section 332 (g) of the Tariff Act of 1930, I request that the Commission institute an investigation for the purpose of providing my office with a report listing the 6-digit HS subheading for each pharmaceutical currently having an INN and each intermediate chemical product to be covered by the proposed pharmaceutical agreement. The report should identify each instance where there is a known difference in opinion among countries on the correct classification of a product. I have already provided a data tape of INN products to your staff.

Our negotiating partners in the pharmaceuticals sector are engaged in a similar review, based principally upon work that has been done by the European Community, with a view to achieving the best possible common understanding on the classification of the products included in the agreement. To facilitate our multilateral procedures, and particularly the resolution of any differences among countries on the classification of products, the results of the Commission's work in this investigation should be provided to my office, and also made available to the public, on a flow basis, as separable segments of the work are completed. It is important for our schedule that the final report be submitted no later than June 1, 1992.

In order to carry out this request, it is understood that the Commission staff will have to work closely with the U.S. Customs Service. I am therefore requesting the Commissioner of Customs to provide whatever technical assistance the Commission requires to accomplish this task.

Your assistance in this work is greatly appreciated.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Carla', with a long, sweeping horizontal stroke extending to the right.

Carla A. Hills

[Investigation No. 337-TA-335]

Certain Dynamic Sequential Gradient Devices; Designation of Additional Commission Investigative Attorney

Notice is hereby given that, as of this date, Linda C. Odom, Esq. and Sarah C. Middleton, Esq. of the Office of Unfair Import Investigations are designated as the Commission investigative attorneys in the above-cited investigation instead of Linda C. Odom, Esq.

The Secretary is requested to publish this Notice in the Federal Register.

Dated: February 19, 1992.

Lynn L. Levine,

Director, Office of Unfair Import Investigations.

[FR Doc. 92-4388 Filed 2-25-92; 8:45 am]

BILLING CODE 7030-02-M

[Investigation No. 332-322]

Certain Pharmaceuticals and Intermediate Chemicals: Identification of Applicable 6-Digit HS Subheadings for Products Covered by the Proposed Uruguay Round Pharmaceutical Agreement

AGENCY: United States International Trade Commission.

ACTION: Institution of investigation.

EFFECTIVE DATE: February 14, 1992.

FOR FURTHER INFORMATION CONTACT:

General inquiries regarding the investigation may be directed to Ms. Elizabeth R. Nesbitt (202) 205-3353, Energy and Chemicals Division, Office of Industries, U.S. International Trade Commission, Washington, DC 20436. For information on legal aspects of the investigation contact Mr. William Gearhart of the Commission's Office of the General Counsel (202) 205-3091.

SUMMARY: Following receipt on January 27, 1992, of a request from the United States Trade Representative (USTR), the Commission instituted investigation No. 332-322 under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) for the purpose of providing a report listing the 6-digit Harmonized System (HS) subheading for each pharmaceutical product currently having an International Non-proprietary Name

(INN) and certain intermediate chemicals (used primarily in the production of pharmaceuticals) to be covered in the proposed "zero-for-zero" initiative on pharmaceuticals currently being negotiated in the Uruguay Round market access negotiations. In her request letter, the USTR asked the Commission to make its work available both to her office and the public on a flow basis. Per the USTR's request, the following intermediate chemicals will be considered in this investigation:

1,1'-(4-Chlorobutylidene)bis(4-fluorobenzene)
m-Chlorobenzyl chloride
4-Chloro-3-nitrotrifluoromethylbenzene
Isophytol
Sodium 4-chloro-1-hydroxy-1-butane sulphonate
2-Bromo-6-methoxynaphthalene
3-Chloropropyl-2,5-xylyl ether
Oxirane{[4-(2-methoxyethyl)phenoxy]methyl}-
Diisopropoxycyclohexane
9,10-Ethanoanthracene-9(10H)-acrolein
6-Methoxy-2-naphthaldehyde
Isobutyl acetophenone
4-Chloro-1-(4-fluorophenyl)-1-butanone
5-H-Dibenzo-[a,d]-cyclohepten-5-one
2-Chloro-1-(2,4-dichlorophenyl) ethanone
10,11-Dihydro-5H-dibenzo-[a,d]-cyclohepten-5-one
Pregna-1,4-diene-3,20-dione, 11,17,21-trihydroxy-16-methyl-, (11. alpha., 16. beta)
9-beta, 11-beta-Epoxy 17-alpha, 21-dihydroxy-16-beta-methylpregna-1,4-diene-3,20-dione (9,11-epoxide)
21-Acetoxy-17-alpha-hydroxy-16-beta-methylpregna-1,4,9-triene-3,20-dione
D-(-)-3-Acetylthio-2-methyl propanoic acid
Methyl-(R)-(-)-3-hydroxybutyrate
Isobutyl-3,4-epoxybutanoate
alpha-(2-Bromoethyl)-alpha-phenylbenzeneacetic acid
2-Chloro-4,5-difluorobenzoic acid
[(2-Methyl-1)-1-oxyl propoxy] (propoxy)-(4-phenylbutyl 1)-phosphinyl] cinchonidine salt
[(2-Methyl-1)-1-oxyl propoxy] (propoxy)-(4-phenylbutyl 1)-phosphinyl] acetate
Mono-4-nitrobenzyl malonate
magnesium salt dihydrate
Monophenyl phenyl malonate
D(-)-alpha-Formyloxy-alpha-phenylacetyl chloride
Calcium lactate gluconate
8(S)-[2,2-dimethyl-1-oxobutoxy]-1,2,6,7,8,8-alpha(R), hexahydro-beta(R), delta (R)-dihydroxy-2(S), 6(R)-dimethyl-1(S)-naphthaleneheptanoic acid, ammonium salt
1,2,6,7,8,8-alpha-Hexahydro beta, beta, delta, beta-dihydroxy-2 beta, 6 alpha-dimethyl-8 alpha-(2 beta-methyl-1-

oxobutoxy-1 beta-naphthaleneheptanoic acid, ammonium salt
3-(2-Chloro-4,5-difluorophenyl)-3-oxopropionic acid ethyl ester
Ethyl-2-oxo-4-phenylbutanoate
16-alpha-Methyl-1,4-pregnadiene-17-alpha, 21-diol-3,20-dione, 21 acetate
(6-alpha, 11-beta, 16-alpha, 17-alpha)-6,9-Difluoro-11,17-dihydroxy-16-methyl-3-oxoandrosta-1,4-diene-17-carboxylic acid
21-Acetoxy-17-alpha-hydroxy-16-beta-methylpregna-1,4-diene, 3,20-dione
Pregna-1,4-diene-3,20-dione, 21-[(ethoxycarbonyl)oxy]-17-hydroxy-16-methyl-11-[(methylsulfonyl)oxy]-, (11-alpha-, 16-beta)
Pregna-1,4,9-(11)-triene-3,20-dione, 21-[(ethoxycarbonyl)oxy]-17-hydroxy-16-methyl-, (16-beta)
Diethyl ethoxymethylene malonate
Dihydro phenyl glycine
Ethyl-2-(2-chloro-4,5-difluoro-benzoyl)-3-(2,4-difluoro phenyl-amino)-2-acrylate
alpha', alpha'-Trifluoro-2,3-xylylidene
1-Naphthaleneamine, 4-(3,4-dichlorophenyl)-1,2,3,4-tetrahydro-N-methyl-hydrochloride, trans-(+,-)
N-Benzylmethylamine
1-Deoxy-1-(octylamino)-D-glucitol
2(S,3R)-(+)-4-Dimethylamino-3-methyl-1,2-diphenyl-2-butanol
2-(3,4-Dimethoxyphenyl)ethylamine

 Cholic acid and 3-alpha,12-alpha-dihydroxy-5-beta-cholan-24-oic acid (deoxycholic acid), crude
 Polymerisation products of acrylic acid with small quantities of a polyunsaturated monomer for use in the manufacture of medicaments of heading no. 3003 or 3004

The Commission was also asked to identify each instance where there is a known difference in opinion among countries on the classification of a product. USTR has requested the Commissioner of Customs to provide Commission staff with any necessary technical assistance. The USTR requested that the Commission submit its report no later than June 1, 1992.

WRITTEN SUBMISSIONS: In response to the USTR's request that the Commission make its work available to the public on a flow basis, the Commission plans to make available two interim reports on March 13, 1992, and April 24, 1992. Each interim report will contain a listing of the classifications completed by that phase of the investigation. Anyone wishing to be put on a distribution list to be compiled should write or fax ((202) 205-2188) the Office of the Secretary as soon as possible and provide a mailing address. Interested parties may also obtain copies of the reports on or after

the above-mentioned dates from the Office of the Secretary either in person or via a fax request to that Office. Copies of these reports will also be provided to the Pharmaceutical Manufacturers Association, the Synthetic Organic Chemical Manufacturers Association, and the Chemical Manufacturers Association.

Interested parties are requested to submit written statements to the Commission regarding any discrepancies between their current classifications for the chemicals under consideration and the classifications presented by the Commission. Only submissions regarding product classifications will be considered in the Commission's report. Proof of such classification conflicts are requested either in the form of official rulings provided by the U.S. Customs Service (Customs) or in the form of copies of prior communications with Customs on this issue. The Commission will work with Customs personnel to resolve any classification conflicts. No confidential information is requested. No requests to modify the list of products under consideration will be considered by the Commission.

To be given consideration, comments on the first report must be received by close of business (5:15 pm) on March 27, 1992. The deadline for the receipt of comments on the second interim report will be close of business May 8, 1992. Although confidential information is not required, information which a submitter desires the Commission to treat as confidential must be submitted on separate sheets of paper, each marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of § 201.6 of the Commission's *Rules of Practice and Procedure* (19 CFR 201.6). All written submissions, except for confidential business information, will be available for inspection by interested persons. All submissions should be addressed to the Secretary at the Commission's office in Washington, D.C.

Hearing impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

Issued: February 19, 1992.

By order of the Commission.

Kenneth R. Mason,

Secretary.

[FR Doc. 92-4391 Filed 2-25-92; 8:45 am]

BELLING CODE 7020-02-01

(Investigations Nos. 731-TA-542-544 (Preliminary))

Potassium Hydroxide From Canada, Italy, and the United Kingdom

Determinations

On the basis of the record¹ developed in the subject investigations, the Commission determines,² pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673h(a)), that there is no reasonable indication that an industry in the United States is materially injured or threatened with material injury, or that the establishment of an industry in the United States is materially retarded, by reason of imports from Canada, Italy, and the United Kingdom of potassium hydroxide, provided for in subheading 2815.20.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Background

On January 2, 1992, a petition was filed with the Commission and the Department of Commerce by Linchem, Inc., Ashtabula, OH, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of potassium hydroxide from Canada, Italy, and the United Kingdom. Accordingly, effective January 2, 1992, the Commission instituted antidumping investigations Nos. 731-TA-542-544 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the *Federal Register* of January 9, 1992 (57 FR 924). The conference was held in Washington, DC, on January 23, 1992, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on February 18, 1992. The views of the Commission are contained in USITC Publication 2482 (February 1992), entitled "Potassium Hydroxide from Canada, Italy, and the United Kingdom: Determinations of the Commission in Investigations Nos. 731-TA-542-544 (Preliminary) Under the Tariff Act of 1930, Together With the

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² Commissioner Watson not participating.
