Preface to Eighth Edition

November 29, 1974

The Tariff Schedules of the United States Annotated (1975) (TSUSA-1975) is the eighth edition of a compilation published pursuant to section 201, Tariff Classification Act of 1962 1/, embracing the legal text of the Tariff Schedules of the United States, as amended and modified, together with statistical annotations formulated pursuant to section 484(e), Tariff Act of 1930. 2/

The principal changes in this edition reflect (1) supplements 1-9 to the seventh edition (1972); (2) Presidential Proclamations 4317, 4334, and 4335; (3) Public Laws 93-470, 93-480, 93-482, 93-483, 93-484, 93-490, 93-497, and 93-499; (4) statistical annotations, effective January 1, 1975 (formulated pursuant to section 484(e), Tariff Act of 1930); and (5) Bureau of the Census changes in Schedules C and D--classifications of country designations and U.S. customs districts and ports for U.S. foreign trade statistics.

1/ "Sec. 201. The Commission is authorized to issue at appropriate intervals, and to keep up to date, a publication containing current tariff schedules and related matters, including such matters as may be needed for reporting statistics." The first edition (1963) consisted of the original publication and five supplements; the second edition (1965) consisted of the original publication and nine supplements; the third edition (1968) consisted of the original publication and two supplements; the fourth edition (1969) consisted of the original publication and three supplements; the fifth edition (1970) consisted of the original publication and four supplements; the sixth edition (1971) consisted of the original publication and five supplements; and the seventh edition (1972) consisted of the original publication and nine supplements.

2/ "Sec. 484. * * * (e) The Secretary of the Treasury, the Secretary of Commerce, and the Chairman of the United States Tariff Commission are authorized and directed to establish from time to time for statistical purposes an enumeration of articles in such detail as in their judgment may be necessary, comprehending all merchandise imported into the United States, and as a part of the entry there shall be attached thereto or included therein an accurate statement specifying, in terms of such detailed enumeration, the kinds and quantities of all merchandise imported and the value of the total quantity of each kind of article."

These changes are documented in the TSUSA sections entitled "Staged Rates and Historical Notes," or simply "Historical Notes" where staged rates are not involved. These sections include all of the changes that have been made since August 31, 1963, in the legal text of the tariff schedules and in the statistical annotations, as well as prospective changes in the legal text.

The Staged Rates and Historical Notes are keyed to each of the parts of the tariff schedules and appear at the end of each such part. For the convenience of users, however, the pages of the staged rates and notes and the pages of the basic tariff schedules are separately numbered so that persons who so desire may remove the staged rates and notes and place them in a separate binder.

The statistical annotations contained in the TSUSA prescribe the statistical information to be supplied on customs entry and withdrawal forms with respect to articles imported into the customs territory of the United States. Thus, this publication is designed to enable importers, customs brokers, customs officers, and other interested persons to determine (1) the classifications and rates of duty applicable to imported articles and (2) the requirements for reporting statistical data with respect to such imports.

Requests from interested parties for changes in any of the requirements for statistical reporting should be prepared in quadruplicate and submitted to --

The Chairman
Committee for Statistical Annotation
of Tariff Schedules
United States Tariff Commission
Washington, D.C. 20436

Such requests should in every instance indicate precisely the nature of the desired changes and give detailed reasons in support of the request.

TARIFF SCHEDULES
OF THE UNITED STATES ANNOTATED

(1975)

GENERAL HEADNOTES AND RULES OF INTERPRETATION

Page 3

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general headnote 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the schedules, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the schedules apply to articles imported into the customs territory of the United States as hereinafter provided in this headnote:

(a) Products of Insular Possessions.

(i) Except as provided in headnote 6 of schedule 7, part 2, subpart E, [and] except as provided in headnote 4 of schedule 7, part 7, subpart A, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value, coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which, at the time such article is entered, may be imported into the customs territory from a foreign country, other than Cuba or the Philippine Republic, and entered free of duty.

(b) Products of Cuba. Products of Cuba imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. Preferential rates of duty for such products apply only as shown in the said column 1. 1/

1/ By virtue of section 401 of the Tariff Classification Act of 1962, the application to products of Cuba of either a preferential or other reduced rate of duty in column 1 is suspended. See general headnote 3(e), *infra*. The provisions for preferential Cuban rates continue to be reflected in the schedules because, under section 401, the rates therefor in column 1 still form the bases for determining the rates of duty applicable to certain products, including "Philippine articles".

2/ Products of the Philippine Republic imported into the customs territory of the United States, whether imported directly or indirectly, and entered after July 3, 1974, are subject to the rates of duty other than preferential rates set forth in column numbered 1 of the schedules.

Note: The shaded area indicates that the effective period for special tariff treatment has expired.

2/ (c) Products of the Philippine Republic.

(i) Products of the Philippine Republic imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty which are set forth in column numbered 1 of the schedules or to fractional parts of the rates in the said column 1, as hereinafter prescribed in subdivisions (c)(ii) and (c)(iii) of this headnote.

(ii) Except as otherwise prescribed in the schedules, a Philippine article, as defined in subdivision (c)(iv) of this headnote, imported into the customs territory of the United States and entered on or before July 3, 1974, is subject to that rate which results from the application of the following percentages to the most favorable rate of duty (i.e., including a preferential rate prescribed for any product of Cuba) set forth in column numbered 1 of the schedules:

(A) 20 percent, during calendar years

1963 through 1964,

(B) 40 percent, during calendar years

1965 through 1967,

(C) 60 percent, during calendar years

1968 through 1970,

(D) 80 percent, during calendar years

1971 through 1973,

(E) 100 percent, during the period from January 1, 1974, through July 3, 1974.

(iii) Except as otherwise prescribed in the schedules, products of the Philippine Republic, other than Philippine articles, are subject to the rates of duty (except any preferential rates prescribed for products of Cuba) set forth in column numbered 1 of the schedules.

(iv) The term "Philippine article", as used in the schedules, means an article which is the product of the Philippines, but does not include any article produced with the use of materials imported into the Philippines which are products of any foreign country (except materials produced within the customs territory of the United States) if the aggregate value of such imported materials when landed at the Philippine port of entry, exclusive of any landing cost and Philippine duty, was more than 20 percent of the appraised customs value of the article imported into the customs territory of the United States.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. The rates of duty for a Canadian article, as defined in subdivision (d)(ii) of this headnote, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the schedules, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

General Headnotes and Rules of Interpretation

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this headnote, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder:

Albania
Bulgaria
China (any part of which may be under Communist domination or control)
Cuba 1/
Czechoslovakia
Estonia
Germany (the Soviet zone and the Soviet sector of Berlin)
Hungary
Indochina (any part of Cambodia, Laos, or Vietnam which may be under Communist domination or control)
Korea (any part of which may be under Communist domination or control)
Kurile Islands
Latvia
Lithuania
Outer Mongolia
Rumania
Southern Sakhalin
Tanna Tuva
Tibet
Union of Soviet Socialist Republics and the area in East Prussia under the provisional administration of the Union of Soviet Socialist Republics.

(f) Products of All Other Countries. Products of all countries not previously mentioned in this headnote imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules.

(g) Effective Date; Exceptions - Staged Rates of Duty. 2/ Except as specified below or as may be specified elsewhere, pursuant to section 501(a) of the Tariff Classification Act of 1962 (P.L. 87-456, approved May 24, 1962), the rates of duty in columns numbered 1 and 2 become effective with respect to articles entered on or after the 10th day following the date of the President's proclamation provided for in section 102 of the said Act. If, in column numbered 1, any rate of duty or part thereof is set forth in parenthesis, the effective date shall be governed as follows:

- (i) If the rate in column numbered 1 has only one part (i.e., 8¢ (10¢) per lb.), the parenthetical rate (viz., 10¢ per lb.) shall be effective as to articles entered before July 1, 1964, and the other rate (viz., 8¢ per lb.) shall be effective as to articles entered on or after July 1, 1964.
- (ii) If the rate in column numbered 1 has two or more parts (i.e., 5¢ per lb. + 50¢ ad val.) and has a parenthetical rate for either or both parts, each part of the rate shall be governed as if it were a one-part rate. For example, if a rate is expressed as "4¢ (4.5¢) per lb. + 8¢ (9¢) ad val.", the rate applicable to articles entered before July 1, 1964, would be "4.5¢ per lb. + 9¢ ad val."; the rate applicable to articles entered on or after July 1, 1964, would be "4¢ per lb. + 8¢ ad val."
- (iii) If the rate in column numbered 1 is marked with an asterisk (*), the foregoing provisions of (i) and (ii) shall apply except that "January 1, 1964" shall be substituted for "July 1, 1964", wherever this latter date appears.

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

2/ The purpose of headnote 3(g) was to provide for an effective date for the rates of duty initially contained in the Tariff Schedules of the United States. By Presidential Proclamation 3548 of August 21, 1963, these rates of duty, except as noted in subparagraphs (i), (ii), and (iii) of headnote 3(g), became effective on August 31, 1963.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the Tariff Schedules --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Intangibles. For the purposes of headnote 1 --

(a) corpses, together with their coffins and

accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) electricity,

(d) securities and similar evidences of value, and

(e) vessels which are not "yachts or pleasure boats" within the purview of subpart D, part 6, of schedule 6,

are not articles subject to the provisions of these schedules.

6. Containers or Holders for Imported Merchandise.

For the purposes of the tariff schedules, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are subject to tariff treatment as follows:

(i) The usual or ordinary types of shipping or transportation containers or holders, if not designed for, or capable of, reuse, and containers of usual types ordinarily sold at retail with their contents, are not subject to treatment as imported articles. Their cost, however, is, under section 402 or section 402a of the tariff act, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

(ii) The usual or ordinary types of shipping or transportation containers or holders, if designed for, or capable of, reuse, are subject to treatment as imported articles separate and distinct from their contents. Such holders or containers are not part of the dutiable value of their contents and are separately subject to duty upon each and every importation into the customs territory of the United States unless within the scope of a provision specifically exempting them from duty.

(iii) In the absence of context which requires otherwise, all other containers or holders are subject to the same treatment as specified in (ii) above for usual or ordinary types of shipping or transportation containers or holders designed for, or capable of, reuse.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

- (i) sampling,
 - (ii) verification of packing lists or other documents filed at the time of entry, or
 - (iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,
- the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subdivision (b) hereof.

(b) Every segregation of articles made pursuant to this headnote shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this headnote do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

- (i) that such part (A) is commercially negligible,
- (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise; and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this headnote do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

- (i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;
- (ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and
- (iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this headnote shall apply only in cases where the schedules do not expressly provide a particular tariff treatment for commingled articles.

9. Definitions. For the purposes of the schedules, unless the context otherwise requires --

(a) the term "entered" means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States;

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption;

(c) the term "withdrawn for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty; and the rates of duty in column numbered 2 at the time the schedules become effective shall be referred to as "original statutory" rates of duty;

(e) the term "ton" means 2,240 pounds, and the term "short ton" means 2,000 pounds;

(f) the terms "of", "wholly of", "almost wholly of", "in part of" and "containing", when used between the description of an article and a material (e.g., "furniture of wood", "woven fabrics, wholly of cotton", etc.), have the following meanings:

(i) "of" means that the article is wholly or in chief value of the named material;

(ii) "wholly of" means that the article is, except for negligible or insignificant quantities of some other material or materials, composed completely of the named material;

(iii) "almost wholly of" means that the essential character of the article is imparted by the named material, notwithstanding the fact that significant quantities of some other material or materials may be present; and

(iv) "In part of" or "containing" mean that the article contains a significant quantity of the named material.

With regard to the application of the quantitative concepts specified in subparagraphs (ii) and (iv) above, it is intended that the de minimis rule apply.

General Headnotes and Rules of Interpretation

10. General Interpretative Rules. For the purposes of these schedules —

(a) the general, schedule, part, and subpart headnotes, and the provisions describing the classes of imported articles and specifying the rates of duty or other import restrictions to be imposed thereon are subject to the rules of interpretation set forth herein and to such other rules of statutory interpretation, not inconsistent therewith, as have been or may be developed under administrative or judicial rulings;

(b) the titles of the various schedules, parts, and subparts and the footnotes therein are intended for convenience in reference only and have no legal or interpretative significance;

(c) an imported article which is described in two or more provisions of the schedules is classifiable in the provision which most specifically describes it; but, in applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings indented under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the schedules or between coordinate inferior headings which are subordinate to the same superior heading;

(d) if two or more tariff descriptions are equally applicable to an article, such article shall be subject to duty under the description for which the original statutory rate is highest, and, should the highest original statutory rate be applicable to two or more of such descriptions, the article shall be subject to duty under that one of such descriptions which first appears in the schedules;

(e) in the absence of special language or context which otherwise requires —

(i) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(ii) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered;

(f) an article is in chief value of a material if such material exceeds in value each other single component material of the article;

(g) a headnote provision which enumerates articles not included in a schedule, part, or subpart is not necessarily exhaustive, and the absence of a particular article from such headnote provision shall not be given weight in determining the relative specificity of competing provisions which describe such article;

(h) unless the context requires otherwise, a tariff description for an article covers such article, whether assembled or not assembled, and whether finished or not finished;

(i) a provision for "parts" of an article covers a product solely or chiefly used as a part of such article, but does not prevail over a specific provision for such part.

11. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the schedules. The allowance of an importer's claim for classification, under any of the provisions of the schedules which provide for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this headnote.

12. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

General statistical headnotes:

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of these schedules;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the United States port of unloading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of these schedules;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of these schedules;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in these schedules;

(x) the statistical reporting number under which the articles are classifiable;

(xi) gross weight in pounds for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 or 402a of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

General statistical headnotes (con.):

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in these schedules.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 or 402a of the tariff act, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(2) of the tariff act;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(2) of the tariff act; and

(v) in the event that information for the purpose of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedules of the United States consist of --

- (i) the 2-digit statistical suffixes,
- (ii) the indicated units of quantity,
- (iii) the statistical headnotes and annexes, and
- (iv) the italicized article descriptions.

(b) The legal text of the Tariff Schedules of the United States consists of the remaining text as more specifically identified in headnote 10(a) of the general headnotes and rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) General Rule: Except as provided in paragraph (b) of this headnote, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 7-digit number formed by combining the 5-digit item number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 100.95 is "100.9520".

(b) Wherever in the tariff schedules an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 7-digit number for the basis provision followed by the item number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "165.6500-165.40".

4. Abbreviations. (a) The following symbols and abbreviations are used with the meanings respectively indicated below:

s. ton	-	short ton
C.	-	one hundred
Cwt.	-	100 lbs.
mg.	-	milligram
M.	-	1,000
bd. ft.	-	board feet
M. bd. ft.	-	1,000 board feet
mc.	-	millicurie
cord	-	128 cubic feet

sup. ft.	-	superficial foot
oz.	-	ounces avoirdupois
fl. oz.	-	fluid ounces
oz. troy	-	troy ounces
pf. gal.	-	proof gallon

(b) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(c) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

Each and every gauge or wine gallon of measurement is counted as at least one proof gallon; and the standard for determining the proof of brandy and other spirits or liquors of any kind when imported is the same as that which is defined in the laws relating to internal revenue. The Secretary of the Treasury, in his discretion, may authorize the ascertainment of the proof of wines, cordials, or other liquors and fruit juices by distillation or otherwise, when it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.</p> <p>3. The duties prescribed on products covered by this part are in addition to the internal-revenue taxes imposed under existing law or any subsequent Act. The duties imposed on products covered by this part which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes; except that, in the case of distilled spirits transferred to the bonded premises of a distilled spirits plant under the provisions of section 5232 of the Internal Revenue Code of 1954, the duties are imposed on the quantity withdrawn from customs custody.</p> <p>4. For the purposes of this subpart --</p> <p>(a) the term "gallon" in the "Rates of Duty" column of the provisions applicable to fruit juices means gallon of natural unconcentrated juice or gallon of reconstituted juice;</p> <p>(b) the term "reconstituted juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and</p> <p>(c) the term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.</p> <p>4. In determining the number of gallons of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.</p> <p>5. Subpart B. - Lumber, Flooring, and Moldings					
<u>Subpart B headnotes:</u>					
1. This subpart covers lumber, wood siding, wood flooring, wood moldings, and certain wood carvings and ornaments, including such products when they have been drilled or treated.					
2. For the purposes of this part, the following terms have the meanings hereby assigned to them:					
(a) <u>Lumber</u> : A product of a sawmill or sawmill and planing mill derived from a log by lengthwise sawing which, in its original sawed condition, has at least 2 approximately parallel flat longitudinal sawed surfaces, and which may be rough, dressed, or worked, as set forth below:					
(i) <u>rough lumber</u> is lumber just as it comes from the saw, whether in the original sawed size or edged, resawn, crosscut, or trimmed to smaller sizes;					
(ii) <u>dressed lumber</u> is lumber which has been dressed or surfaced by planing on at least one edge or face; and					
(iii) <u>worked lumber</u> is lumber which has been matched (provided with a tongued-and-grooved joint at the edges or ends), shiplapped (provided with a rabbeted or lapped joint at the edges), or patterned (shaped at the edges or on the faces to a patterned or molded form) on a matching machine, sticker, or molder.					
Edge-glued or end-glued wood over 6 feet in length and not over 15 inches in width shall be classified as lumber if such wood as a solid piece without glue joints would be deemed to be lumber as defined above.					
(b) <u>Softwood</u> : Wood from trees of coniferous species (order Coniferae).					
(c) <u>Hardwood</u> : Wood from trees of non-coniferous species.					
(d) <u>Drilled or treated</u> : Drilled at intervals for nails, screws, or bolts, sanded or otherwise surface processed in lieu of, or in addition to, planing or working, or treated with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels, but not including anti-stain or other temporary applications mentioned in headnote 4 of this subpart.					
(e) <u>Standard wood moldings</u> : Wood moldings worked to a pattern and having the same profile in cross section throughout their length.

The treatment of lumber or other products provided for in this subpart with anti-stain or other temporary applications which serve only for the purpose of maintaining the products in their rough, dressed, or worked condition until installation or further manufacture shall not affect their classification under any of the provisions of this subpart.</p>

Except for decalcomanias, labels, flaps, and bands, all of which are covered by the provisions therefor in this part, regardless of the nature of the printing thereon, this part covers only printed matter consisting essentially of textual or pictorial matter produced by any printing process, and similar matter in manuscript or typewritten form. The text may be set forth in any language by means of any kind of characters. 3. For the purposes of the tariff schedules --

(a) the term "ornamented", as used with reference to textile fabrics and other articles of textile materials, means fabrics and other articles of textile materials which are ornamented with --

6. (a) If the rate of duty in column numbered 1 applicable to wool provided for in item 306.31 is at any time increased or decreased, the specific part of the compound rate of duty in column 1 (hereinafter referred to as the compensatory part thereof) applicable to articles provided for in each item listed in paragraph (e) of this note, and so much of each specific rate in column 1 applicable to articles provided for in each item listed in paragraph (f) of this note as is therein designated as the compensatory part thereof, shall, subject to the provisions of paragraphs (b) through (d) of this note, be increased or decreased in the same proportion as such rate applicable to wool provided for in item 306.31 is increased or decreased.

SCHEDULE 3. - TEXTILE FIBERS AND TEXTILE PRODUCTS

126

Schedule 3 headnotes (con.):

(f) The items containing the specific rates referred to in paragraph (a) of this note and the compensatory parts of such rates are:

Item	Compensatory part of rate
336.35	30¢ per lb.
336.55	37.5¢ per lb.

7. With respect to fabrics provided for in part 3 (other than fabrics valued over \$2 per pound provided for in item 337.50) and in part 4 of this schedule, provisions for fabrics in chief value of wool shall also apply to fabrics in chief weight of wool (whether or not in chief value of wool). For the purposes of the preceding sentence, a fabric is in chief weight of wool if the weight of the wool component is greater than the weight of each other textile component (i.e., cotton, vegetable fibers except cotton, silk, man-made fibers, or other textile materials) of the fabric.

Schedule 3 statistical headnotes:

1. The statistical provisions for textiles include, in addition to the regular statistical annotations, certain annotations essential for the administration of the Arrangement Regarding International Trade in Textiles by the Committee for the Implementation of Textile Agreements.

(a) In order to monitor imports subject to restraints under this arrangement, it is necessary that certain articles containing cotton, wool, or man-made fibers, or combinations thereof, be specifically identified. For example, any article containing 50 percent or more by weight of cotton may be designated as "Subject to cotton restraints". Similarly, articles containing 50 percent or more by weight of man-made fibers may be designated as "Subject to man-made fiber restraints". In addition, certain articles containing over 17 percent by weight of wool are "Subject to wool restraints". Articles containing blends of cotton, wool, or man-made fibers which, in the aggregate, amount to 50 percent or more by weight are also subject to these restraints. Definitions of the foregoing provisions are given in statistical headnote 3 below. (It should not be assumed that all imports required to be reported under any such statistical annotations are actually being controlled at any particular time, but restraints may be applied to articles imported from certain countries, depending on unilateral actions or bilateral agreements developed under the arrangement.)

(b) Restraints under the arrangement may not apply to developing-country exports of hand-loomed fabrics of the cottage industry, to handmade products of the cottage industry made of such hand-loomed fabrics, or to traditional folklore handicraft textile products, provided that the foregoing types of products are properly certified under arrangements established between the importing and exporting participating countries. Annotations for such products are designated in this schedule and in schedule 7 as "Certified hand-loomed and folklore products".

2. Certain articles wholly or in chief value of cotton, wool, or man-made fibers and certain woven fabrics in chief weight of wool which may be restrained under the provisions of this arrangement are adequately identified for monitoring purposes in this schedule and in schedule 7 and, therefore, are not annotated as "Subject to (cotton, man-made fiber, or wool) restraints".

3. Where the specific restraint references appear in this schedule and in schedule 7, the following meanings are hereby assigned to them:

(a) The term "Subject to cotton restraints" refers to--

(i) articles in which the cotton component

equals or exceeds 50 percent by weight of all component fibers thereof; or

(ii) articles in which the cotton with wool and/or man-made fibers in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the cotton component equals or exceeds the weight of each of the total wool and/or total man-made fiber components.

(b) The term "Subject to man-made fiber restraints" refers to articles not meeting the requirements of (a) above, but qualifying as--

(i) articles in which the man-made fiber components equal or exceed 50 percent by weight of all component fibers thereof; or

(ii) articles in which the man-made fibers with cotton and/or wool in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the man-made fiber component exceeds the weight of each of the total wool and/or total cotton components, except articles in which the wool content exceeds 17 percent by weight of the total fiber content.

(c) The term "Subject to wool restraints" refers to articles in which the wool content exceeds 17 percent by weight of all component fibers and which are not provided for in (a) or (b) above.

4. As a convenient cross-reference, each of the cotton, wool, and man-made fiber categories (or groupings) used by the United States in monitoring import shipments of these textile products and to administer the United States textile trade agreements programs are listed in this schedule and in schedule 7 following the appropriate 7-digit description. Also, for those desiring a cross-reference of applicable 7-digit provisions for each of the category numbers, the following table may be used--

SCHEDULE 3. - TEXTILE FIBERS AND TEXTILE PRODUCTS
 Part 1. - Textile Fibers and Wastes; Yarns and Threads

Item	Stat. Suf- fix	Articles	Units of Quantity	Rates of Duty	
				1	2
		<p>PART 1. - TEXTILE FIBERS AND WASTES; YARNS AND THREADS</p> <p><u>Part 1 headnotes:</u></p> <p>1. For the purposes of this part -- (a) the term "waste" means all fiber, yarn, and thread wastes, including wastes obtained in the production of continuous and noncontinuous fibers, yarns, and threads, such as gin notes, scutcher waste (including tow), picker waste, card waste, top waste, comb waste (including nolls), hackling waste (including tow), sliver waste, roving waste, ring waste, throwster (twister or piler) waste, fly, sweepings, and willowed wastes, and including fiber, yarn, and thread wastes obtained in the production of other textile products (i.e., products other than fibers, yarns, or threads) or otherwise obtained; and (b) the term "advanced waste" means any of the above-mentioned wastes which have been cleaned, bleached, colored, or otherwise advanced, and includes fibers recovered by cleaning (except willowing), degumming, carbonizing, cutting, pickering, garnetting or similar processes from any of the above-mentioned wastes or from textile clippings or articles, new or used, whether or not such fibers or the wastes from which recovered have also been otherwise advanced, but does not include fibers which have been carded, combed, or similarly processed, or reuseable yarns or threads.</p> <p>2. Rags and scrap cordage are covered in part 7C of this schedule.</p> <p>-----</p> <p>Subpart A. - Cotton</p> <p><u>Subpart A headnotes:</u></p> <p>1. The term "number", as applied to yarns in this subpart, means the number of 840-yard hanks of yarn in 1 pound. To determine the number of any yarn, whether single or plied, the actual yards per pound shall be divided by 840 and the quotient thereof multiplied by the number of plies in such yarn. Fractions in the resulting yarn number shall be disregarded.</p> <p>2. In this subpart, each of the rates of duty provided for yarns, wholly of cotton, not bleached, mercerized, colored, combed or plied (items 301.01 through 301.98, inclusive) is also the "base rate" for yarn of the same number covered by item 302.--. For citation purposes, the two blanks on the end of the latter item number shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 302.28" would be the citation for bleached, mercerized, colored, combed, or plied yarns, wholly of cotton, of number 28.</p> <p>3. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.</p> <p>-----</p>

SCHEDULE 3. - TEXTILE FIBERS AND TEXTILE PRODUCTS
Part 3. - Woven Fabrics

Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty	
				1	2
		<p>PART 3. - WOVEN FABRICS</p> <p><u>Part 3 headnote:</u></p> <p>1. This part covers all woven fabrics in the piece, of any width and with or without fast edges, including gauze and leno-woven fabrics, but does not include --</p> <p>(i) any woven fabrics which are specially provided for in the provisions of part 4 of this schedule;</p> <p>(ii) certain wool fabric samples (see part 7A of this schedule); or</p> <p>(iii) woven fabrics in item 748.10 of part 7B of schedule 7.</p> <p>Subpart A. - Woven Fabrics, of Cotton</p> <p><u>Subpart A headnotes:</u></p> <p>1. (a) In the ascertainment of the condition of the fabrics or yarns upon which the duties imposed upon cotton fabrics are made to depend, the entire fabric and all parts thereof shall be included.</p> <p>(b) The term "number", as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous, and with the count being taken of the total single yarns in the fabric including the single yarns in any plied yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes:</p> $N = \frac{BYT}{840}, \text{ or } \frac{24T}{352}, \text{ or } \frac{2BT}{1052}, \text{ or } \frac{3ST}{70}$ <p>when:</p> <p>N is the average yarn number,</p> <p>B is the breadth (width) of the fabric in inches,</p> <p>Y is the yards (linear) of the fabric per pound,</p> <p>T is the total single yarns per square inch,</p> <p>S is the square yards of fabric per pound,</p> <p>Z is the ounces per linear yard of fabric, and</p> <p>Z' is the ounces per square yard of fabric.</p> <p>2. In this subpart, each of the rates of duty provided for fabric, wholly of cotton, not fancy or figured, and not bleached and not colored (items 319.21 through 319.25 and items 320.01 through 320.98, both inclusive) is also the "base rate" for fabrics of the same average yarn number covered by items 319.27 and 319.29, and by items 321.-- through 331.--, inclusive, respectively. For citation purposes, the two blanks on the end of each of the latter item numbers shall</p>

		<p>be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 324.45" would be the citation for woven fabrics, wholly of cotton, of number 45, fancy or figured, and bleached but not colored.</p> <p>3. The term "fancy or figured", as used in this subpart in relation to fabrics, means fabrics which have been woven with 2 or more colors or kinds of filling; with 8 or more harnesses; or with jacquard, lappet, or swivel attachments; or by any combination of these weaving methods.</p> <p>4. With respect only to the fabrics provided for in items 319.21 through 319.25 and 320.01 through 320.98, none of the ad valorem rates of duty, or the ad valorem parts of the compound rates of duty, shall be less than the equivalent of --</p> <p>(i) 0.23 cent per number per pound in rate column 1 for items 320.01 through 320.98;</p> <p>(ii) 0.3 cent per number per pound in rate column 1 for items 319.21 through 319.25; and</p> <p>(iii) 0.55 cent per number per pound in rate column 2 for items 319.21 through 319.25 and 320.01 through 320.98.</p> <p><u>Subpart A statistical headnotes:</u></p> <p>1. For the purposes of this schedule, the following terms relating to fabrics of cotton have the meanings hereby assigned to them. (The average yarn number referred to in certain of the definitions is the "number" ascertained by the method set forth in headnote 1 of this subpart. The yarn number (before weaving) referred to in certain of the definitions is the yarn number of the yarn before it is prepared for weaving):</p> <p>(a) <u>Duck</u>: Plain-woven fabrics made of oarled yarns, not napped, woven with less than 8 harnesses and without the use of jacquard, lappet, or swivel attachments, the warp and/or filling of which consists of plied yarns or of 2 or more single yarns woven as one, having an average yarn number not over 16, weighing 5 ounces or more per square yard.</p> <p>(b) <u>Gingham</u>: Plain-woven and fancy yarn-dyed fabrics having two or more colors in the warp and/or in the filling. Include checked and plaid ginghams, gingham stripes, cloth of "haircord" construction (i.e., cloth having cord stripes in the warp which are formed by yarns woven from an extra beam), and "poplin" type fabrics with a difference in picks per inch and ends per inch of less than 40 (e.g., 90 x 60). Excluded are yarn-dyed handkerchief fabrics made in box looms. 		<p>(h) <u>Table damask</u>: Cotton fabrics, not napped, woven with <u>Jacquard</u> or <u>dobby</u> attachments characterized by elaborate decorative designs, usually of floral patterns. The designs are reversible and are formed by a warp-face satin weave and the ground by a filling-face satin weave. Table damask is generally all white, although it is sometimes made with colored stripes or in solid pastel shades.</p> <p>(ij) <u>Twills and sateens</u>:</p> <p><u>Twills</u>—Fabrics woven with a twill weave, not napped, having a more or less pronounced diagonal effect on the face of the cloth. They include fabrics known as <u>drills</u>, <u>warp twills</u>, <u>filling twills</u>, <u>jeans</u>, <u>filter twills</u>, <u>broken twills</u>, <u>herringbone twills</u>, <u>gabardines</u>, <u>denims</u>, <u>chinos</u>, and <u>tickings</u>.</p> <p><u>Denims</u>—Three-harness or four-harness twill fabrics, not fancy or figured, and not piece-colored, but the warp yarns of which are colored, made of singles yarn, and having an average yarn number over 3 but not over 16.</p> <p><u>Sateens</u>—Fabrics woven with a satin weave, not napped, in which the surface of the cloth consists almost entirely of warp or filling floats, that is, in the repeat of a weave pattern, each yarn of one system passes over several yarns of the other system before interlacing; they are sometimes woven with a twill weave but the diagonal effect in these is not ordinarily discernible on the face of the cloth. Schedule 4 headnotes:

1. This schedule does not include --
 - (i) any of the mineral products provided for in schedule 5;
 - (ii) metal-bearing ores and other metal-bearing materials, provided for in part 1 of schedule 6; or
 - (iii) metals provided for in part 2 of schedule 6.
2. (a) The term "compounds", as used in this schedule, means substances occurring naturally or produced artificially by the reaction of two or more ingredients, each compound --
 - (i) consisting of two or more elements,
 - (ii) having its own characteristic properties different from those of its elements and from those of other compounds, and
 - (iii) always consisting of the same elements united in the same proportions by weight with the same internal arrangement.

The presence of impurities which occur naturally or as an incident to production does not in itself affect the classification of a product as a compound.

(b) The term "compounds", as used in this schedule, includes a solution of a single compound in water, and, in determining the amount of duty on any such compound subject to duty in this schedule at a specific rate, an allowance in weight or volume, as the case may be, shall be made for the water in excess of any water of crystallization which may have been in the compound.
3. (a) The term "mixtures", as used in this schedule, means substances consisting of two or more ingredients (i.e., elements or compounds), whether occurring as such in nature, or whether artificially produced (i.e., brought about by mechanical, physical, or chemical means), which do not bear a fixed ratio to one another and which, however thoroughly commingled, retain their individual chemical properties and are not chemically united. The fact that the ingredients of a product are incapable of separation or have been commingled in definite proportions does not in itself affect the classification of such product as a mixture.
- (b) The term "mixtures", as used in this schedule, includes solutions, except solutions defined as compounds in headnote 2(b) of this schedule.

SCHEDULE 4. - CHEMICALS AND RELATED PRODUCTS
Part 1. - Benzenoid Chemicals and Products

Item	Stat. Suf- fix	Articles	Units of Quantity	Rates of Duty	
				1	2
		<p>PART 1. - BENZENOID CHEMICALS AND PRODUCTS</p> <p><u>Part 1 headnotes:</u></p> <p>1. Except as specifically set forth in the headnotes to other parts of this schedule, all products described in this part shall be classified hereunder even if more specifically described elsewhere in this schedule. Any product described in both subparts B and C of this part shall be classified in subpart C.</p> <p>2. For the purposes of this part, the term "modified benzenoid" describes a molecular structure having at least one six-membered heterocyclic ring which contains at least four carbon atoms and having an arrangement of molecular bonds as in the benzene ring or in the quinone ring, but does not include any such molecular structure in which one or more pyrimidine rings are the only modified benzenoid rings present.</p> <p>3. With the exception of the natural products provided for in subpart C, this part does not cover cyclic organic chemical products (such as, but not limited to, tannic, gallic and pyrogalllic acids; estrone, estradiol, and corticosteroids; morphine, ergot, and cinchona alkaloids; rotenone; phenylalanine; tyrosine; epinephrine; and thymols) having a benzenoid, quinoid, or modified benzenoid structure, which are produced from animal or vegetable products in which such structure occurs naturally, unless such cyclic organic chemical products were obtained, derived, or manufactured in part from any product provided for in subpart A, B or C of this part.</p> <p>4. The ad valorem rates provided in this part shall be based upon the American selling price, as defined in section 402 or 402a of this Act, of any similar competitive article manufactured or produced in the United States. If there is no similar competitive article manufactured or produced in the United States then the ad valorem rate shall be based upon the United States value, as defined in the said section 402 or 402a.</p> <p>5. For the purposes of this part, any product provided for in this part shall be considered similar to, or competitive with, any imported product which accomplishes results substantially equal to those accomplished by the domestic product when used in substantially the same manner.</p>

		<p>Subpart C. - Finished Organic Chemical Products</p> <p><u>Subpart C headnotes:</u></p> <p>1. The provisions of this subpart providing for products obtained, derived, or manufactured in whole or in part from products described in subparts A or B of this part shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in the said subpart A or B.</p> <p>2. The term "pesticides" in item 405.15 means products, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.</p> <p>3. The term "plastics materials" in item 405.25 embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added. The term includes, but is not limited to, phenolic and other tar-acid resins, styrene resins, alkyd and polyester resins based on phthalic anhydride, coumarone-indene resins, urethane, epoxy, toluene sulfonamide, maleic, fumaric, aniline, and polyamide resins, and other synthetic resins. The plastic materials may be in solid, semi-solid, or liquid condition, such as flakes, powders, pellets, granules, solutions, emulsions, and other basic forms not further processed.</p> <p>4. The term "plasticizers" in item 405.40 means substances which may be incorporated into a material (usually a plastic, resin material, or an elastomer) to increase its softness, flexibility, workability, or distensibility.</p> <p>5. The term "drugs" in this subpart means those substances having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines.</p> <p>6. For the purposes of the provisions of this subpart relating to "Colors, dyes, stains, and related products" (except products provided for in item 406.80) --</p> <p>(a) the specific duties shall be based on standards of strength which shall be established by the Secretary of the Treasury, and upon all importations of such articles which exceed such standards of strength the specific duty shall be computed on the weight which the article would have if it were diluted to the standard strength, but in no case shall any such articles of whatever strength be subject to a less specific duty than that provided in the respective items of this subpart;</p>

If a dye or other product has been introduced into commercial use since said date then the standard of strength for such dye or other product shall conform as nearly as practicable to the commercial strength in ordinary use. If a dye or other product was or is ordinarily used in more than one commercial strength, then the lowest commercial strength shall be adopted as the standard of strength for such dye or other product.</p> <p><u>Subpart C statistical headnote:</u></p> <p>1. For statistical reporting purposes, the quantity reported for "Colors, dyes, stains, and related products", subject to headnote 6(a) of this subpart, shall be the quantity on which the specific duty is assessed.</p>

1/ In accordance with general note 3(f) to Schedule XX (Geneva - 1967), the rates of duty for this item in the columns headed 1970, 1971, 1972 were to become effective unless the European Economic Community and the United Kingdom had not proceeded with certain reductions provided for in their respective schedules annexed to the Geneva (1967) Protocol to the GATT. These two participants have not so proceeded, and the President has so proclaimed (Pres. Proc. 3950, Dec. 24, 1969, 34 F.R. 20299, effective date January 1, 1970), with the result that the rate of duty in the column headed 1969 will continue in effect unless or until the President proclaims that they have agreed so to proceed. See related footnote 1 to Kennedy Round Staged Rates at the end of schedule 4, parts 3, 4, 5, 7, 8, 9, and 13; schedule 5, part 1; schedule 6, part 2; and schedule 7, parts 2, 9, 12, and 13.

		<p>PART 4. - SYNTHETIC RESINS AND PLASTICS MATERIALS; RUBBER</p> <p>Subpart A. - Synthetic Resins and Plastics Materials</p> <p><u>Subpart A headnotes:</u></p> <p>1. This subpart does not cover synthetic plastics materials provided for in part 1C of this schedule, but the addition of any product described in part 1 of this schedule to a synthetic plastics material described in this subpart as an antioxidant, color, dispersing agent, emulsifier, extender, filler, pesticide, plasticizer, or stabilizer does not affect the classification of such synthetic plastics material in this subpart.</p> <p>2. The term "synthetic plastics materials", in this subpart, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which an antioxidant, color, dispersing agent, emulsifier, extender, filler, pesticide, plasticizer, or stabilizer may have been added. These products contain as an essential ingredient an organic substance of high molecular weight; are capable, at some stage during processing into finished articles, of being molded or shaped by flow; and are solid in the finished article. The term includes, but is not limited to, such products derived from esters of acrylic or methacrylic acid; vinyl acetate, vinyl chloride resins, polyvinyl alcohol, acetals, butyral, formal resins, polyvinyl ether and ester resins, and polyvinylidene chloride resins; urea and amino resins; polyethylene, polypropylene, and other polyalkene resins; siloxanes, silicones, and other organo-silicon resins; alkyd, acrylonitrile, allyl, and formaldehyde resins, and cellulosic plastics materials. These synthetic plastics materials may be in solid, semi-solid, or liquid condition such as flakes, powders, pellets, granules, solutions, emulsions, and other basic crude forms not further processed.</p>

1. This subpart covers all rubber whether or not obtained, derived, or manufactured in whole or in part from any product described in part 1 of this schedule.					
2. For the purposes of the tariff schedules, the term "rubber" means a substance, whether natural or synthetic, in bale, crumb, powder, latex, or other crude form, which can be vulcanized or otherwise cross-linked, and which after cross-linking can be stretched at 68°F. to at least three times its original length and which, after having been stretched to twice its original length and the stress removed, returns within 5 minutes to less than 150 percent of its original length, and includes such substance whether or not containing fillers, extenders, pigments, or rubber-processing chemicals.

		Subpart C headnotes:			
		1. The provision in this subpart for artists', students', and children's pigments and paints assembled into sets (item 474.08) covers only pigments and paints assembled in such container and form, and with such assortment of articles, as to be suitable for sale at retail to artists, students, or children as a paint set, kit, or color outfit.			
		2. The term "paints and enamel paints" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; and the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents.

Any product described in this part and also in part 1 of this schedule is classifiable in said part 1, except fuel oils, motor fuel, and lubricating oils and greases, containing by weight not over 25 percent of any product described in said part 1. This part does not cover --</p> <p>(i) paraffin and other petroleum waxes (see part 138 of this schedule), or</p> <p>(ii) petroleum asphalts (see part 1J of schedule 5).</p> <p>2. For the purposes of this part --</p> <p>(a) "Reconstituted crude petroleum" (Items 475.05 and 475.10) is a product which is essentially the equivalent of crude petroleum and which is made by adding fuel oil, naphtha, or other petroleum fractions to crude or topped crude petroleum; and</p> <p>(b) "Motor fuel" (Item 475.25) is any product derived primarily from petroleum, shale, or natural gas, whether or not containing additives, which is chiefly used as a fuel in internal-combustion or other engines.</p> <p>3. For the purposes of Items 475.65 and 475.70 of this part --</p> <p>(a) a product is considered to be <u>in liquid form</u> if --</p> <p>(i) the penetration is more than 350 units (35 millimeters) when tested by the procedure and equipment specified in American Society of Testing Materials (ASTM) Designation: D-5 with the use of a 50-gram load for 1 second at 77°F., or when tested by a procedure which provides equivalent results, and</p> <p>(ii) such product is not in an essentially gaseous state at a temperature of 60°F. and at a pressure of 14.65 pounds per square inch (absolute), regardless of the condition of the product at the time of importation; and</p> <p>(b) in determining the relative weights of components of the mixtures provided for in items 475.65 and 475.70, naphtha and other petroleum derivatives which may be present in such mixtures as solvents shall be disregarded.</p> <p>^{1/} Under the authority granted to the President by section 232 of the Trade Expansion Act of 1962 (19 U.S.C. 1862), numerous proclamations amending Pres. Proc. 3279 of March 10, 1959, provide that crude petroleum and certain petroleum products thereof are subject to import quotas. Pres. Proc. 4210, issued April 18, 1973 (38 F.R. 9645), effective May 1, 1973, further amends Pres. Proc. 3279, by suspending the tariffs upon imports of petroleum and petroleum products listed in this part and by shifting to a system whereby fees are charged for licenses covering imports over certain allocated quantities. The President on June 19, 1973, issued Pres. Proc. 4227 and on September 27, 1974, Pres. Proc. 4317, both of which made a number of technical changes in the fee system.</p>

If material with respect to which a certification has been filed is to be transferred to a plant for initial treatment other than the plant specified in the certification, the importer shall notify the collector at the port of entry in advance of the transfer of the material and the entry shall be liquidated or reliquidated on the basis of the allowable losses for the plant to which transfer is to be made. 		<p><u>Part I statistical headnote:</u></p> <p>1. For the purposes of this part --</p> <p>(a) the statistical reporting requirements for lead-, zinc-, or copper-bearing ores differ from the usual requirements in that multiple members must be used to report a single commodity. In all cases where ores are dutiable on the metal content under one or more of the items 602.10-.31, one or more of the reporting members under items 601.03-.66 must also be shown on separate lines on the import entry form. For example, a shipment of zinc concentrates to be initially treated at a zinc plant and containing also lead and copper (in excess of 2 percent by weight, as determined by chemical analysis without deductions), and also gold and silver, shall be reported under the following eight reporting members:</p> <p>601.6621 (lead content), 601.6622 (zinc content), 601.6623 (copper content), 601.6624 (gold content), 601.6625 (silver content), 602.1021 (dutyable lead content), 602.2022 (dutyable zinc content), and 602.3023 (dutyable copper content);</p> <p>(b) the 7-digit reporting members under items 601.39, 601.66, 603.50, 603.55, and 603.65 are not mutually exclusive. For example, a material classifiable under item 603.55 and containing lead, copper, gold, and silver would require the numbers 603.5510 (lead content), 603.5530 (copper content), 603.5540 (gold content), and 603.5550 (silver content). The quantity and value of each component metal of the material should be shown with the corresponding 7-digit number;</p> <p>(c) the quantity of metal content to be reported shall be the assay quantity without deductions unless otherwise specified;</p> <p>(d) for lead-, copper-, or zinc-bearing ores separate values for each such metal shall be reported in connection with the quantities reported under items 602.10, 602.20, or 602.30. The value of the gold or silver content, if any, shall be reported in connection with the appropriate 7-digit number in item 601.39 or 601.66. The sum of the separate values shown shall be equal to the total value of the ore; and</p> <p>(e) for precious metal ores classifiable under item 601.39 and not containing dutiable amounts of lead, zinc, or copper, separate values for gold, silver, or "other precious metal" content shall be reported in connection with the corresponding 7-digit item number found therein.</p> <p>-----</p> <p>Metal-bearing ores and the dross or residuum from burnt pyrites:</p>

		<p>PART 2. - METALS, THEIR ALLOYS, AND THEIR BASIC SHAPES AND FORMS</p> <p>Part 2 headnotes:</p> <p>1. This part covers precious metals and base metals (including such metals when they are chemically pure), their alloys, and their so-called basic shapes and forms, and, in addition, covers metal waste and scrap. Unless the context requires otherwise, the provisions of this part apply to the products described by whatever process made (i.e., whether rolled, forged, drawn, extruded, cast or sintered) and whether or not such products have been subjected to treatments to improve the properties or appearance of the metals or to protect them against rusting, corrosion or other deterioration. These treatments include annealing, tempering, case-hardening and similar heat-treatments or nitriding; descaling, pickling, scraping, scalping and other processes to remove oxidation scale and crust; rough coating with oil, tar, grease, red lead, or other material to prevent rusting; polishing, burnishing, glazing, artificial oxidation, phosphatizing, and other finishing treatments; metallization by cementation, by electroplating, by immersion in a bath of molten metal, or by other means; coating with enamel, paint, lacquer, or other non-metallic substances; and cladding. This part does not include --</p> <p>(i) insulated electric conductors (see part 5 of this schedule);</p> <p>(ii) milliners' wire and other wire covered with textile or other nonmetallic material (see part 3B of this schedule);</p> <p>(iii) leaf and foil (see part 3C of this schedule); or</p> <p>(iv) other articles specially provided for elsewhere in the tariff schedules, or parts of articles.</p> <p>2. <u>Alloys.</u> -- (a) For the purposes of the tariff schedules, alloys are defined and classifiable as hereinafter set forth. Alloys are metallic substances consisting of two or more metals, or of one or more metals and one or more non-metals, intimately united, usually by having been fused together and which may or may not have been dissolved in each other when molten; they include sintered mixtures of metal powders and heterogeneous intimate mixtures obtained by fusion, but do not include substances in which the total weight of the metals does not equal or exceed the total weight of the non-metal components.</p> <p>(b) <u>Precious-metal alloys</u> are alloys which contain 2 percent or more by weight of one or more metals of the platinum group, of gold, or of silver. Precious-metal alloys are classifiable as --</p> <p>(i) alloys of platinum, if they contain 2 percent or more by weight of one or more metals of the platinum group;</p>

Base-metal alloys are classifiable as --</p> <p>(i) alloys of that base metal which predominates by weight over each of the other metallic elements contained therein, except as specified in (c)(ii) of this headnote; and</p> <p>(ii) ferroalloys (as defined in headnote 2(e) of subpart B of this part) or master alloys (as defined in headnote 2(b) of subpart C of this part) under their respective headings in subpart B or C of this part, regardless of the base metal therein which predominates by weight.</p> <p>(d) In the tariff schedules, unless the context requires otherwise, a provision for a specific metal includes that metal and its alloys.</p> <p>3. For the purposes of this part, unless the context requires otherwise --</p> <p>(a) the term "unwrought" refers to metal, whether or not refined, in the form of ingots, blocks, lumps, billets, cakes, slabs, pigs, cathodes, anodes, briquettes, cubes, sticks, grains, sponge, pellets, shot, and similar primary forms, but does not cover rolled, forged, drawn, or extruded products, tubular products, or cast or sintered forms which have been machined or processed otherwise than by simple trimming, scalping, or descaling;</p> <p>(b) the term "<u>waste and scrap</u>" refers to materials and articles of metal which are second-hand or waste or refuse, or are obsolete, defective or damaged, and which are fit only for the recovery of the metal content or for use in the manufacture of chemicals, and does not include metal in unwrought form or metal-bearing materials provided for in part 1 of this schedule;</p> <p>(c) the term "<u>wrought</u>", as applied to metal products other than wrought iron, refers to products which have been rolled, forged, drawn, or extruded, and also refers to cast or sintered products which have been machined or processed otherwise than by simple trimming, scalping, or descaling;</p> <p>(d) the term "<u>clad</u>", as applied to metal products, refers to such products with two or more layers of metal of different colors or natures which have been associated or bonded together by forging, hammering, rolling, or other mechanical or thermic process to insure welding or molecular interpenetration of the surfaces in contact; and</p>

		Subpart D. - Aluminum			
		Subpart D headnotes:			
		1. This subpart covers aluminum, its alloys, and their so-called basic shapes and forms and also covers aluminum waste and scrap.			
		2. Alloys of aluminum: For the purposes of the tariff schedules, alloys of aluminum are metals in which the aluminum content is, by weight, less than 99.0 percent, but not less than any other metallic element. Aluminum silicon is an alloy of aluminum containing not less than 25 percent of silicon. In the absence of context which requires otherwise, the term "aluminum", wherever used in the tariff schedules, includes alloys of aluminum.			
		3. For the purposes of this subpart, the following terms have the meanings indicated:			
		(a) Bars: Products of solid rectangular cross section, 0.25 inch or more in thickness and over 0.375 inch but not over 12 inches in width, in coils or cut to length; and products of solid hexagonal or octagonal cross section, 0.375 inch or more in thickness (measuring the perpendicular distance between opposite faces) in coils, or of any thickness in straight lengths.			
		(b) Rods: Products of solid round cross section, which, if 0.375 inch or more in diameter, are in coils or cut to length, and which, if under 0.375 inch in diameter, are in straight lengths.			
		(c) Plates, sheets, and strips: Products of solid rectangular cross section, in coils or cut to length, whether or not corrugated or crimped. Plates are 0.25 inch or more in thickness and over 12 inches in width; sheets and strip are under 0.25 but not under 0.006 inch in thickness.			
		(d) Wire: A product of solid round, rectangular, hexagonal, or octagonal cross section, in coils, whose diameter, width, or perpendicular distance between opposite faces is less than 0.375 inch.			
		(e) Angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strips, rods, or wire and do not include any tubular products.

		1. This subpart covers base metals not provided for in subparts B through J of this part, and their alloys, wrought and unwrought, and also includes the waste and scrap of such base metals. This subpart does not cover ferrocenium and other pyrophoric alloys (see part 9A of schedule 7).			
		2. Alloys: For the purposes of the tariff schedules, alloys of each of the base metals provided for in this subpart are metals in which the content of the respective base metal is, by weight, less than 99.0 percent, but not less than any other metallic element. In the absence of context which requires otherwise, a reference to one of the base metals by name, wherever used in the tariff schedules, includes alloys of such base metal.

<p align="center">Subpart E. - Watches, Clocks, and Timing Apparatus</p> <p><u>Subpart E headnotes:</u></p> <p>1. This subpart covers watches and clocks, time switches and other timing apparatus with clock or watch movements, and parts of these articles. This subpart, however, does not cover --</p> <p>(i) synchronous or subsynchronous motors (see part 5 of schedule 6);</p> <p>(ii) screws, nuts, and bolts (see part 3D of schedule 6);</p> <p>(iii) music boxes and their mechanisms (see part 3 of schedule 7);</p> <p>(iv) combination articles provided for elsewhere in the tariff schedules; or</p> <p>(v) clock and watch glasses and glass domes (see part 3 of schedule 5).</p> <p>2. For the purposes of this subpart --</p> <p>(a) the term "watches" embraces timepieces (including timepieces having special features, such as chronographs, calendar watches, stopwatches, and watches designed for use in skydiving) suitable for wearing or carrying on or about the person, whether or not the movement therein is within the definition of "watch movement" in headnote 2(b), below;</p> <p>(b) the term "watch movement" means a timepiece movement measuring less than 1.77 inches in width and less than 0.50 inch in thickness;</p> <p>(c) the term "clock movement" means any movement or mechanism, other than "watch movements" as defined in headnote 2(b), above, intended or suitable for measuring time;</p> <p>(d) the term "cases" embraces inner and outer cases, containers, and housings for movements, together with parts or pieces, such as, but not limited to, rings, feet, posts, bases, and outer frames, and any auxiliary or incidental features, which (with appropriate movements) serve to complete the watches, clocks, time switches, and other apparatus provided for in this subpart; and</p> <p>(e) the term "jewels" includes substitutes for jewels.</p> <p>3. (a) In this subpart, column 1 of the Rates of Duty columns with respect to watch movements having not over 7 jewels has been divided into two columns, viz., 1-a and 1-b. The rates of duty in column 1-a apply to watch movements which have 7 jewels or which, if having less than 7 jewels, do not have a bushing or its equivalent (other than a substitute for a jewel) in any position customarily occupied by a jewel. The rates of duty in column 1-b apply to watch movements having under 7 jewels and having a bushing or its equivalent (other than a substitute for a jewel) in any position customarily occupied by a jewel.</p>

		<p>(b) The complete citation for watches covered by item 715.05 and clocks covered by item 715.15 shall be each of such item numbers, followed by the appropriate item numbers for the respective movements and cases comprising such watches or clocks. Thus, item 715.05-716.08-720.20 is the correct citation for a watch in a gold case having over 17 jewels.</p> <p>(c) In this subpart, each of the rates of duty provided for watch movements, having no jewels or not over 17 jewels, not adjusted, not self-winding, and not constructed or designed to operate for a period in excess of 47 hours without rewinding (items 716.10 through 716.36, inclusive) is also the "base rate" for watch movements having the same width and number of jewels covered by items 717.--, 718.--, and 719.--. For citation purposes, the two blanks on the end of each of the latter item numbers shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 717.31" would be the citation for an adjusted watch movement, 0.7 inch wide, having 17 jewels, but not self-winding and not constructed or designed to operate for a period in excess of 47 hours without rewinding.</p> <p>(d) The width of a watch or clock movement, as defined in headnote 2(b) and (c) of this subpart, is the shortest surface dimension through the center of the pillar or bottom plate, or its equivalent, not including in the measurement any portion not essential to the functioning of the movement; and the thickness of a "watch movement", as so defined, is the maximum thickness between the outside surfaces of the plate and bridges, or their equivalents.</p> <p>(e) The additional duty for adjustments to watch movements applies to each adjustment of whatever kind (treating adjustment to temperature as two adjustments), in accordance with the marking as hereinafter provided for.</p> <p>(f) Bimetallic balance wheels which are not part of balance assemblies, and mainsprings with riveted ends, are each to be considered as one part or piece, for the purposes of assessing duties on assemblies and subassemblies provided for in items 720.75, 720.80, 720.82, 720.84, and 720.86.</p> <p>4. <u>Special Marking Requirements:</u> Any movement, case, or dial provided for in this subpart, whether imported separately or attached to an article provided for in this subpart, shall not be permitted to be entered unless conspicuously and indelibly marked by cutting, die-sinking, engraving, or stamping, as specified below:</p> <p>(a) Watch movements shall be marked on one or more of the bridges or top plates to show --</p> <p>(i) the name of the country of manufacture,</p> <p>(ii) the name of the manufacturer or purchaser,</p> <p>(iii) in Arabic numerals and in words, the number of jewels, if any, serving a mechanical purpose as frictional bearings; and</p> <p>(iv) in Arabic numerals and in words, the number and classes of adjustments, or, if unadjusted, the word "unadjusted".</p>

Combination Articles Containing Watch or Clock Movements.</u>--A watch or clock movement (and its dial, if any) in a combination article is classifiable under the provision applicable to such combination article, but, in determining the duties on the combination article, the movement (and its dial, if any) shall be constructively separated therefrom and assessed with the same rate as would have applied if it had been imported separately. In such circumstances, the movement and its dial shall also be subject to the same marking requirements provided for in headnote 4 of this subpart. However, such separate assessment and special marking shall not be applicable to movements which, when imported, are installed as the usual equipment of vehicles or craft provided for in part 6 of schedule 6 or as integral and essential parts of laboratory, industrial, or commercial apparatus or equipment.</p> <p><u>6. Products of Insular Possessions.</u>--(a) Except as provided in paragraph (b) of this headnote, any article provided for in this subpart which is the product of an insular possession of the United States outside the customs territory of the United States and which contains any foreign component shall be subject to duty--</p> <p>(i) at the rates set forth in column numbered 1, if the countries of origin of more than 50 percent in value of the foreign components are countries to products of which column numbered 1 rates apply, and</p> <p>(ii) at the rates set forth in column numbered 2, if the countries of origin of 50 percent or more in value of the foreign components are countries to products of which column numbered 2 rates apply.</p>

		<p>(b) If the requirements for free entry set forth in general headnote 3(a) are complied with, watches (provided for in item 715.05) and watch movements (provided for in items 716.08 through 719.--) which are the product of the Virgin Islands, Guam, or American Samoa and which contain any foreign component may be admitted free of duty, but the total quantity of such articles entered free of duty during each calendar year shall not exceed a number equal to 1/9 of the apparent United States consumption of watch movements during the preceding calendar year (as determined by the Tariff Commission), of which total quantity--</p> <p>(i) not to exceed 87.5 percent shall be the product of the Virgin Islands,</p> <p>(ii) not to exceed 8.33 percent shall be the product of Guam, and</p> <p>(iii) not to exceed 4.17 percent shall be the product of American Samoa.</p> <p>(c) On or before April 1 of each calendar year (beginning with 1967), the Tariff Commission shall determine the apparent United States consumption of watch movements during the preceding calendar year, shall report such determination to the Secretary of the Treasury, the Secretary of the Interior, and Secretary of Commerce, and shall publish such determination in the Federal Register, together with the number of watches and watch movements which are the product of the Virgin Islands, Guam, and American Samoa which may be entered free of duty under paragraph (b) during the calendar year.</p> <p>(d) The Secretary of the Interior and the Secretary of Commerce, acting jointly, shall allocate on a fair and equitable basis among producers of watches and watch movements located in the Virgin Islands, Guam, and American Samoa the quotas for each calendar year provided by paragraph (b) for articles which are the product of the Virgin Islands, Guam, and American Samoa, respectively. Allocations made by the Secretaries shall be final. The Secretaries are authorized to issue such regulations as they determine necessary to carry out their duties under this paragraph.</p> <p><u>Subpart E statistical headnote:</u></p> <p>1. (a) The statistical reporting numbers for watches (item 715.05) and for clocks containing movements measuring less than 1.77 inches in width (item 715.15) are a combination of three 7-digit numbers, viz., the 7-digit number for the imported watch (715.0500) or clock (715.1500), and the 7-digit numbers which would have applied to the movement and to the case if they had been imported separately. Thus, the correct reporting number for a watch with a 15-jewel adjusted but not self-winding movement not over 0.6 inch in width and a gold case is "715.0500-717.3015-730.2000".</p> <p>(b) The number and value of imported watches or clocks, and of their movements and cases must be reported separately with their respective 7-digit numbers.</p> <p>(c) For the statistical reporting of watch movements under items 716.30-.36 the 3-digit statistical suffix shall be the actual number of jewels in the movement. For example, the suffix for a movement having 9 jewels would be "09"; similarly, the suffix for a 15-jewel movement would be "15".</p>
