**NOTICE OF COMMISSION DECISION TO REVIEW AN  
INITIAL DETERMINATION GRANTING IN PART RESPONDENTS' MOTION FOR  
SUMMARY DETERMINATION OF INVALIDITY AS TO CLAIMS 1 AND 9 OF U.S.  
PATENT NO. 7,004,766**

**AGENCY:** U.S. International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined to review an initial determination ("ID") (Order No. 30) of the presiding administrative law judge ("ALJ") granting in part respondents' motion for summary determination of invalidity of asserted claims 1 and 9 of U.S. Patent No. 7,004,766 ("the '766 patent").

**SUPPLEMENTARY INFORMATION:** The Commission instituted this investigation on March 14, 2017, based on a complaint filed by J.S.T. Corporation of Farmington Hills, Michigan. 82 FR 13654-55. The complaint, as supplemented, alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, by reason of infringement of claims 2, 4, and 9-10 of the '766 patent. The complaint further alleges the existence of a domestic industry. The Commission's notice of investigation named the following respondents: Robert Bosch

GmbH of Baden-Wuerttemberg, Germany; Bosch Automotive Products (Suzhou) Co., Ltd. of Jiangsu, China; Robert Bosch LLC of Broadview, Illinois; Robert Bosch, Sistemas Automatrices, S.A. de C.V. of Chihuahua, Mexico; Robert Bosch Ltda. of Campinas-SP, Brazil; and Hon Hai Precision Industry Co., Ltd. and Foxconn Interconnect Technology, Ltd., both of New Tapei City, Taiwan. The Office of Unfair Import Investigations is not participating in the investigation.

On April 5, 2018, the ALJ issued a second *Markman* Claim Construction Order (Order No. 25) finding that the language in claim 9 of the '766 patent, "the plural holes are all respectively independent individual holes that are not interconnected with one another and that are configured and arranged so that each one of the holes receives no more than one of the contact legs therein," is indefinite. The ALJ specifically found that a person of ordinary skill in the art would not understand the scope of four limitations recited in claim 9, *i.e.*, (1) "independent;" (2) "individual;" (3) "not interconnected;" and (4) "configured and arranged so that each one of the holes receives no more than one of the contact legs therein." Claim 1 of the '766 patent includes a similar claim term, "wherein the through holes are all respectively independent individual holes that are not interconnected with one another and that are configured and arranged so that each one of the holes receives no more than one of the contact legs therein." On April 23, 2018, respondents moved for summary determination of invalidity of claims 1 and 9. Complainant opposed the motion.

On May 18, 2018, the ALJ issued the subject ID (Order No. 30) granting in part respondents' motion for summary determination of invalidity of claims 1 and 9 of the '766 patent with respect to claim 9 of the '766 patent only. The ALJ found that summary determination of invalidity of claim 9 is appropriate based on his previous finding of indefiniteness as to these limitations in his *Markman* Order. *See* Order No. 25 at 6-10 (expressly incorporated by reference). Complainant filed a petition for review on May 29, 2018. On June 5, 2018, respondents filed their combined response in opposition.

Having examined the record of this investigation, including the subject ID, the petition for review, and the responses thereto, the Commission has determined to review the subject ID. Specifically, the Commission has determined to review the ID's finding that claim 9 of the '766 patent is invalid because the claim language, "the plural holes are all respectively independent individual holes that are not interconnected with one another and that are configured and arranged so that each one of the holes receives no more than one of the contact legs therein," is indefinite. The Commission does not request further briefing at this time.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in part 210 of the Commission's Rules of Practice and Procedure, 19 CFR part 210.

By order of the Commission.
