UNITED STATES INTERNATIONAL TRADE COMMISSION
Washington, D.C.

In the Matter of
CERTAIN POLYCRYSTALLINE DIAMOND COMPACTS AND ARTICLES CONTAINING SAME

Investigation No. 337-TA-1236

EXTENSION OF THE TARGET DATE FOR COMPLETION OF THE INVESTIGATION

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to extend the target date for completion of this investigation until October 3, 2022.

FOR FURTHER INFORMATION CONTACT: Cathy Chen, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, D.C. 20436, telephone 202-205-2392. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission’s electronic docket (EDIS) at https://edis.usitc.gov. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its Internet server at https://www.usitc.gov. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205-1810.

USS moved to terminate the investigation as to Element Six and FIDC over the course of the investigation. All of the motions were granted by non-final initial determinations (“ID”), and the Commission did not review them. Id at 2 (citing Order Nos. 6, 8, 10, and 16). Thus, the only remaining respondents are Iljin, SF Diamond, New Asia/IDS, Haimingrun, Juxin, CR Gems, Jingrui, and Wanlong.

USS also moved for partial termination of the investigation with respect to certain asserted patents and claims. All the motions were granted by non-final IDs, and the Commission did not review them. Id at 3 (citing Order Nos. 26, 32, and 57). As such, the ‘274 and ‘881 patents have been terminated from the investigation. Claims 1, 2, 4, 6, and 18 of the ’565 patent; claims 1, 2, 11, 15, and 21 of the ’502 patent; and claim 15 of the ’306 patent remain in this investigation (collectively, “the Asserted Patents”).

On March 3, 2022, the administrative law judge (“ALJ”) issued his final ID, finding no violation of section 337 by Respondents. Specifically, the ID found at least one accused product infringes all asserted claims of the Asserted Patents, but those claims are invalid under 35 U.S.C. 101 and/or 102. The ID also found that Complainants have shown that the domestic industry requirement has been satisfied with respect to the Asserted Patents. Complainant and Respondents filed separate petitions for review and responses to the petitions for review. On March 31, 2022, Iljin submitted a public interest statement.

On May 9, 2022, the Commission determined to review the ID in part. 87 FR 29375-377 (May 13, 2022). Specifically, the Commission determined to review: (1) the ID’s finding that the asserted claims are invalid under 35 U.S.C. 101; (2) the ID’s finding that the asserted claims of the ’565 patent are not entitled to an earlier priority date and, thus, they are invalid as anticipated by the sale of the CT-57 product; (3) the ID’s finding that the Mercury product anticipates claims 1 and 2 of the ’565 patent and claims 1 and 11 of the ’502 patent; (4) the ID’s finding that Respondents did not prove that the asserted claims are not enabled; and (5) the ID’s findings regarding the economic prong of the domestic industry requirement (including the ruling allowing USS to supplement its domestic industry contentions with a revenue-based allocation method). The Commission determined not to review any other findings presented in the ID, including the ID’s finding of no violation of section 337 with respect to the ’306 patent.

1 On February 8, 2021, Guangdong Juxin Materials Technology Co., Inc. was substituted in place of Zhuhai Juxin Technology. Id at 1 n.1 (citing Order No. 8).
The Commission requested briefing from the parties on certain issues under review and on remedy, the public interest, and bonding. Complainant and Respondents filed their opening written submissions on May 23, 2022, and their responsive written submissions on May 31, 2022. The Commission did not receive comments from the public on public interest issues raised by the ALJ’s recommended relief.

The Commission has determined to extend the target date for completion of this investigation to October 3, 2022.

The Commission vote for this determination took place on September 15, 2022.

By order of the Commission.

Katherine M. Hiner
Acting Secretary to the Commission

Issued: September 15, 2022
