SUPPLEMENTARY INFORMATION:

Scope.-- For purposes of these investigations, Commerce has defined the subject merchandise as “. . . bands made of vulcanized rubber, with a flat length, as actually measured end-to-end by the band lying flat, no less than ½ inch and no greater than 10 inches; with a width, which measures the dimension perpendicular to the length, actually of at least 3/64 inch and no greater than 2 inches; and a wall thickness actually from 0.020 inch to 0.125 inch. Vulcanized rubber has been chemically processed into a more durable material by the addition of sulfur or other equivalent curatives or accelerators. Subject products are included regardless of color or inclusion of printed material on the rubber band’s surface, including but not limited to, rubber bands with printing on them, such as a product name, advertising, or slogan, and printed material (e.g., a tag) fastened to the rubber band by an adhesive or another temporary type of connection. The scope includes vulcanized rubber bands which are contained or

otherwise exist in various forms and packages, such as, without limitation, vulcanized rubber bands included within a desk accessory set or other type of set or package, and vulcanized rubber band balls. The scope excludes products that consist of an elastomer loop and durable tag all-in-one, and bands that are being used at the time of import to fasten an imported product. Excluded from the scope of this investigation are vulcanized rubber bands of various sizes with arrow shaped rubber protrusions from the outer diameter that exceeds at the anchor point a wall thickness of 0.125 inches and where the protrusion is used to loop around, secure and lock in place. Excluded from the scope of this investigation are yarn/fabric-covered vulcanized rubber hair bands, regardless of size.”
