SUPPLEMENTARY INFORMATION:

Scope.-- For purposes of these investigations, Commerce has defined the subject merchandise as “disposable aluminum containers, pans, trays, and lids produced primarily from flat-rolled aluminum. The subject merchandise includes disposable aluminum containers, pans, trays, and lids regardless of shape or size and whether or not wrinkled or smooth.

The term “disposable” is used to identify an aluminum article that is designed to be used once, or for a limited number of times, and then recycled or otherwise disposed. “Containers, pans, and trays” are receptacles for holding goods.

The subject disposable aluminum lids are intended to be used in combination with disposable containers produced from aluminum or other materials (e.g., paper or plastic). Where a disposable aluminum lid is imported with a non-aluminum container, only the disposable aluminum lid is included in the scope...”¹
