**SUPPLEMENTARY INFORMATION:** The Commission instituted this investigation on December 29, 2020, based on a complaint filed by US Synthetic Corporation ("USS") of Orem, Utah. 85 FR 85661 (Dec. 29, 2020). The complaint alleged violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain polycrystalline diamond compacts and articles containing same by reason of infringement of certain claims of U.S. Patent No. 10,507,565 ("the '565 patent"), U.S. Patent No. 10,508,502 ("the '502 patent"), U.S. Patent No. 8,616,306 ("the '306 patent"), U.S. Patent No. 9,932,274 ("the '274 patent"), and U.S. Patent No. 9,315,881 ("the '881 patent"). *Id.* The complaint further alleged that an industry in the United States exists as required by section 337. *Id.* The notice of investigation named as respondents: SF Diamond Co., Ltd., and SF Diamond USA, Inc. (collectively, "SF Diamond"); Element Six Abrasives Holdings Ltd., Element Six Global Innovation Centre, Element Six GmbH, Element Six Limited, Element Six Production (Pty) Limited, Element Six Hard Materials (Wuxi) Co. Limited, Element Six Trading (Shanghai) Co.,

Element Six Technologies US Corporation, Element Six US Corporation, ServSix US, and Synergy Materials Technology Limited (collectively, “Element Six”); Iljin Diamond Co., Ltd., Iljin Holdings Co., Ltd., Iljin USA Inc., Iljin Europe GmbH, Iljin Japan Co., and Ltd., Iljin China Co., Ltd. (collectively, “Iljin”); Henan Jingrui New Material Technology Co., Ltd. (“Jingrui”); Zhenzhou New Asia Superhard Materials Composite Co., Ltd., and International Diamond Services, Inc. (collectively, “New Asia/IDS”); CR Gems Superabrasives Co., Ltd. (“CR Gems”); FIDC Beijing Fortune International Diamond (“FIDC”); Fujian Wanlong Superhard Material Technology Co., Ltd. (“Wanlong”); Zhujau Juxin Technology (“Juxin”);<sup>1</sup> and Shenzhen Haimingrun Superhard Materials Co., Ltd. (“Haimingrun”) (together, “the Respondents”). *Id.* at 85662. The Office of Unfair Import Investigations is not participating in the investigation. *Id.*

USS moved to terminate the investigation as to Element Six and FIDC over the course of the investigation. All of the motions were granted by non-final initial determinations (“ID”), and the Commission did not review them. ID at 2 (citing Order Nos. 6, 8, 10, and 16). Thus, the only remaining respondents are Iljin, SF Diamond, New Asia/IDS, Haimingrun, Juxin, CR Gems, Jingrui, and Wanlong.

USS also moved for partial termination of the investigation with respect to certain asserted patents and claims. All the motions were granted by non-final IDs, and the Commission did not review them. ID at 3 (citing Order Nos. 26, 32, and 57). As such, the ’274 and ’881 patents have been terminated from the investigation. Claims 1, 2, 4, 6, and 18 of the ’565 patent; claims 1, 2, 11, 15, and 21 of the ’502 patent; and claim 15 of the ’306 patent remain in this investigation (collectively, “the Asserted Patents”).

On March 3, 2022, the administrative law judge (“ALJ”) issued his final ID, finding no violation of section 337 by Respondents. Specifically, the ID found at least one accused product infringes all asserted claims of the Asserted Patents, but those claims are invalid under 35 U.S.C. 101 and/or 102. The ID also found that Complainants have shown that the domestic industry requirement has been satisfied with respect to the Asserted Patents. Complainant and Respondents filed separate petitions for review and responses to the petitions for review.

On May 9, 2022, the Commission determined to review certain of the ID’s findings related to the ’565 and the ’502 patents. 87 FR 29375-377 (May 13, 2022). The Commission determined not to review the ID’s finding of no violation of section 337 with respect to the ’306 patent. The Commission requested briefing from the parties on certain issues under review and on remedy, the public interest, and bonding. Complainant and Respondents filed their opening written submissions on May 23, 2022, and their responsive written submissions on May 31, 2022.

The Commission has determined to extend the target date for completion of this investigation to September 15, 2022.

<sup>1</sup> On February 8, 2021, Guangdong Juxin Materials Technology Co., Inc. was substituted in place of Zhuhai Juxin Technology. ID at 1 n.1 (citing Order No. 8).
