

explanatory information and related forms, contact John A. Trelease at the address listed in **ADDRESSES**.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8 (d)]. This notice identifies an information collection that OSM will be submitting to OMB for extension. This collection is contained in 30 CFR part 869, Abandoned Mine Reclamation Fund—Fee Collection and Coal Production Reporting and the form it implements, the OSM-1, Coal Reclamation Fee Report. This request consolidates these requirements with the excess moisture deduction provisions found in § 870.18, approved separately by OMB under control number 1029-0090.

OSM has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on reestimates of burden and respondents. OSM will request a 3-year term of approval for each information collection activity.

Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) the accuracy of the agency's burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information. A summary of the public comments will be included in OSM's submissions of the information collection requests to OMB.

This notice provides the public with 60 days in which to comment on the following information collection activities:
