Consultation

A detailed assessment of the human remains was made by the University of California Berkeley NAGPRA Advisory Committee staff in consultation with representatives of the Office of Hawaiian Affairs (OHA). The OHA was established in 1978, through amendments to the Hawaii State Constitution, to achieve self-governance and to represent the lawful interests of Native Hawaiians. Under NAGPRA, the OHA is a Native Hawaiian Organization (NHO).

History and Description of the Remains

In 1905, human remains representing, at minimum, one individual were removed from a burial cave on the island of Hawaii by Annie M. Alexander. The individual is represented by a mandible. Ms. Alexander, who founded the University of California, Berkeley Museum of Vertebrate Zoology, donated the mandible to the museum, where it comprises part of a larger legacy collection. No known individuals were identified. No associated funerary objects are present.

Determinations Made by the University of California Berkeley

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native Hawaiian human remains and the Office of Hawaiian Affairs.
