produced by subsequent dissolution and hydrogenation of AB Rubber; and (d) reactive liquid polymers containing acrylonitrile and butadiene with amine, epoxy, carboxyl or methacrylate vinyl chemical functionality.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise processed in a third country, including by modifying physical form or packaging with another product, or performing any other finishing, packaging, or processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the AB Rubber.

The merchandise subject to this investigation is classified in the HTSUS at subheading 4002.59.0000. While the HTSUS subheading numbers are provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive.

DEPARTMENT OF COMMERCE
International Trade Administration
[A–201–855]
Acrylonitrile-Butadiene Rubber From Mexico: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that acrylonitrile-butadiene rubber (AB rubber) from Mexico is being, or is likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is April 1, 2020, through March 31, 2021. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable February 2, 2022.

FOR FURTHER INFORMATION CONTACT: Dennis McClure or Faris Montgomery, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–5973 or (202) 482–1537, respectively.

SUPPLEMENTARY INFORMATION:
Background
This preliminary determination is made in accordance with section 733(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this investigation on July 27, 2021.1 On November 17, 2021, Commerce postponed the preliminary determination of this investigation and the revised deadline is now January 26, 2022.2 For a complete description of the events that followed the initiation of this investigation, see the Preliminary Decision Memorandum.3 A list of topics included in the Preliminary Decision Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at https://access.trade.gov/public/FRNoticesListLayout.aspx.

Scope of the Investigation
The product covered by this investigation is AB rubber from Mexico. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments
In accordance with the preamble to Commerce’s regulations,4 in the Initiation Notice Commerce set aside a period of time for parties to raise issues regarding product coverage (i.e., scope).5 Certain interested parties commented on the scope of the investigation as it appeared in the Initiation Notice. For a summary of the product coverage comments and rebuttal responses submitted to the record for this preliminary determination, and accompanying analysis of all comments timely received, see the Preliminary Scope Decision Memorandum.6 Based on Commerce’s analysis of the parties’ comments, Commerce is preliminarily modifying the scope language as it appeared in the Initiation Notice. See the revised scope in Appendix I to this notice.

Methodology
Commerce is conducting this investigation in accordance with section 731 of the Act. Constructed export prices have been calculated in accordance with section 772(b) of the Act. Normal value (NV) is calculated in accordance with section 773 of the Act. For a full description of the methodology underlying the preliminary determination, see the Preliminary Decision Memorandum.

All-Others Rate
Sections 733(d)(1)(ii) and 735(c)(5)(A) of the Act provide that in the preliminary determination Commerce shall determine an estimated all-others rate for all exporters and producers not individually examined. This rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and de minimis margins, and any margins determined entirely under section 776 of the Act.

Commerce calculated an individual estimated weight-average dumping margin for Industrias Negromex S.A. de C.V. (Negromex), the only individually examined exporterproducer in this investigation. Because the only individually calculated dumping margin is not zero, de minimis, or based entirely on facts otherwise available, the estimated weighted-average dumping margin calculated for Negromex is the margin assigned to all other producers and exporters, pursuant to section 735(c)(5)(A) of the Act.

Preliminary Determination
Commerce preliminarily determines that the following estimated weight-average dumping margins exist:

3 See Memorandum, “Decision Memorandum for the Preliminary Determination in the Less-Than-Fair-Value Investigation of Acrylonitrile-Butadiene Rubber from Mexico,” dated concurrently with, and hereby adopted by, this notice (Preliminary Decision Memorandum).
4 See Antidumping Duties; Countervailing Duties, Final Rule, 62 FR 27296, 27323 (May 19, 1997).
5 See Initiation Notice.
intend to verify the information relied upon in making the final determination through alternative means in lieu of an on-site verification.

**Public Comment**

The deadlines for the submission of case and rebuttal briefs with respect to scope issues are specified in the Preliminary Scope Decision Memorandum. Interested parties will be notified of the deadline for the submission of case briefs with respect to non-scope issues at a later date. Rebuttal briefs, limited to issues raised in non-scope-related case briefs, may be submitted no later than seven days after the deadline date for case briefs. Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice. Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this investigation are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party’s name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at a time and place to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

**Postponement of Final Determination and Extension of Provisional Measures**

Section 735(a)(2) of the Act provides that a final determination may be postponed until no later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by the petitioner. Section 351.210(e)(2) of Commerce’s regulations requires that a request by exporters for postponement of the final determination be accompanied by a request for extension of provisional measures from a four-month period to a period not more than six months in duration.

On January 7, 2022, pursuant to 19 CFR 351.210(e), Negromex requested that Commerce postpone the final determination and that provisional measures be extended to a period not to exceed six months. In accordance with section 735(a)(2)(A) of the Act and 19 CFR 351.210(b)(2)(ii), because: (1) The preliminary determination is affirmative; (2) the requesting exporter accounts for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, Commerce is postponing the final determination and extending the provisional measures from a four-month period to a period not greater than six months. Accordingly, Commerce will make its final determination no later than 135 days after the date of publication of this preliminary determination.

**International Trade Commission Notification**

In accordance with section 733(f) of the Act, Commerce will notify the International Trade Commission (ITC) of its preliminary determination. If the final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after the final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

**Notification to Interested Parties**

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act, and 19 CFR 351.205(c).

Dated: January 26, 2022.

Lisa W. Wang,
Assistant Secretary for Enforcement and Compliance.

**Appendix I**

**Scope of the Investigation**

The product covered by this investigation is commonly referred to as acrylonitrile butadiene rubber or nitrile rubber (AB rubber).
Rubber). AB Rubber is a synthetic rubber produced by the emulsion polymerization of butadiene and acrylonitrile with or without the incorporation of a third component selected from methacrylic acid or isoprene. This scope covers AB Rubber in solid or non-aqueous liquid form. The scope also includes carboxylated AB Rubber.

Excluded from the scope of this investigation is AB Rubber in latex form (commonly classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 4002.51.0000). Latex AB Rubber is commonly either (a) acrylonitrile/butadiene polymer in latex form or (b) acrylonitrile/butadiene/methacrylic acid polymer in latex form. The broader definition of latex refers to a water emulsion of a synthetic rubber obtained by polymerization. Also excluded from the scope of this investigation is: (a) AB Rubber containing additives incorporated during the compounding, molding, or use of AB Rubber comprising greater than twenty percent of the total weight of the product. Additives would include, but are not limited to, fillers (e.g. carbon black, silica, clay); reinforcement agents (e.g. fibers, carbon black, silica); vulcanization agents (e.g. sulfur, sulfur complex, peroxide); or AB Rubber containing extension oils making up greater than forty percent of the total weight of the product. Such products would be generally classified under HTSUS subheading 4005; (b) AB Rubber containing polyvinyl chloride (PVC) making up greater than twenty percent of total weight of the product; (c) hydrogenated AB Rubber (commonly referred to as AB Rubber) produced by subsequent dissolution and hydrogenation of AB Rubber; (d) reactive liquid polymers containing acrylonitrile and butadiene with amine, epoxy, carbonyl or methacrylate vinyl chemical functionality.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise processed in a third country, including by modifying physical form or packaging with another product, or performing any other finishing, packaging, or processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the AB Rubber. The merchandise subject to this investigation is classified in the HTSUS at subheading 4002.59.0000. While the HTSUS subheading numbers are provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive.

[A–580–891]
Carbon and Alloy Steel Wire Rod From the Republic of Korea: Final Results of Antidumping Duty Administrative Review; 2019–2020

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that POSCO, the sole producer and exporter subject to this review, made sales of subject merchandise at less than normal value during the period of review (POR), May 1, 2019, through April 30, 2020.

DATES: Applicable February 2, 2022.

SUPPLEMENTARY INFORMATION:
Background
On August 4, 2021, Commerce published the Preliminary Results 1 of this administrative review. POSCO is the sole producer and exporter subject to the review. For a complete description of the events that followed the Preliminary Results, see the Issues and Decision Memorandum. 2 Commerce conducted this review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order 3
The scope of the Order includes certain hot-rolled products of carbon steel and alloy steel, in coils, of approximately round cross section, less than 19.00 mm in actual solid cross-sectional diameter. On April 8, 2019, Commerce excluded from the scope of the Order grade 1078 and higher tire cord quality wire rod used in the production of tire cord wire. 4 On June 13, 2019, Commerce excluded from the scope of the Order valve spring quality steel products defined as wire rod. 5 For a complete description of the scope of the Order, see the Issues and Decision Memorandum.

Analysis of Comments Received
We addressed all issues raised in the case and rebuttal briefs in the Issues and Decision Memorandum. A list of these issues is attached in an appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at http://access.trade.gov. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at https://access.trade.gov/public/FRNoticesListLayout.aspx.

Change Since the Preliminary Results
Based on our analysis of the comments received from interested parties, a review of the record, and for the reasons explained in the Issues and Decision Memorandum, we revised the general and administrative expenses ratio and changed the preliminary margin calculation.

Final Results of the Review
We determine that the following weighted-average dumping margin exists for the period May 1, 2019, through April 30, 2020:

<table>
<thead>
<tr>
<th>Producer and/or Exporter</th>
<th>Weighted-Average Dumping Margin (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>POSCO</td>
<td>7.46</td>
</tr>
</tbody>
</table>

Disclosure
We intend to disclose the calculations performed for the final results within five days of the publication date of this notice in the Federal Register.
