

EXPLANATION OF COMMISSON DETERMINATIONS ON ADEQUACY

in

Uncovered Innerspring Units from China, South Africa, and Vietnam Inv. Nos. 731-TA-1140-1142 (Second Review)

On June 4, 2019, the Commission determined to conduct expedited reviews in the referenced proceedings pursuant to section 751(c)(3)(B) of the Tariff Act of 1930, as amended (19 U.S.C. § 1675(c)(3)(B)).¹

The Commission received a response to the notice of institution from Leggett & Platt (“Leggett”), a domestic producer of uncovered innerspring units (“innersprings”). The Commission found that Leggett filed an individually adequate response. Because Leggett accounted for a substantial percentage of domestic innerspring production in 2018, the Commission determined that the domestic interested party group response was adequate.

The Commission did not receive a response to the notice of institution from any respondent interested party. The Commission therefore determined that the respondent interested party group response was inadequate for each order under review.

The Commission did not find any circumstances that would warrant conducting full reviews. The Commission therefore determined to conduct expedited reviews of these orders.

A record of the Commissioners’ votes is available from the Office of the Secretary and the Commission’s web site (www.usitc.gov).

¹ Commissioner Kearns did not participate in these determinations.
