Note:

1. Access to an electronic copy of this memorandum is available at http://www.usitc.gov/tariff_affairs/congress_reports/.
2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Polyester filament tow in bundles each containing 300,000 to 400,000 filaments (provided for in subheading 5501.20.00).

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

- Same
- Different (see Technical Comments section)

III. Other product information, including uses/applications and source(s) of imports

The end use of these fibers is flocking. Flock has many different applications and adds a variety of colors, textures, and depths to substrates. Flock made from polyester fibers is used in the automotive, screen print graphics, walk-off mat, and battery industries. Compared with polypropylene, polyester is of better quality and higher durability. China is the primary source for U.S. imports of these polyester filament fibers.

IV. Estimated effect on customs revenue

Subject product HTS subheading(s)	5501.20.00				
Item	2013	2014	2015	2016	2017
Col.1-general rate of duty (%)	7.5	7.5	7.5	7.5	7.5
Estimated value of <i>dutiable</i> imports (\$)	466,000	466,000	466,000	466,000	466,000
Customs revenue loss (\$)	34,950	34,950	34,950	34,950	34,950

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce
- Provided by industry sources
- Industry information
- Commission estimates

Duty reduction notes:

- This bill is not a duty reduction
- This bill is a temporary duty reduction. Rates are shown below.

Col.1-general duty rate (%) Temporary rate (%) Percentage point reduction (%)

V. Technical comments

The article description of the proposed heading was modified to be consistent with other HTS provisions and to reflect proper industry usage.

Subject: Made in USA Tow products

Dear Ms. Gaffney:

This is to advise that Palmetto Synthetics.LLC produces:

Synthetic Tow of Polypropylene
Synthetic Tow of Polyester

We added equipment to our facility specifically to produce these products for customers requiring a domestically produced tow.

Therefore, we are opposed to:

HR 4486

HR 4487

Please advise if we can offer any further assistance with this

Best Regards,

Subject: Re: Current MTBs on textiles and apparel

Good afternoon. I realize we may be a bit late in responding to the Batch 2 bills and my apologies. In this batch, AMTAC supports the acrylic bills introduced by Bishop, Carney and Coble as well as the Lieberman fine animal hair bills. We have no position on the Higgins plastic bags for toys (HR 4455). We oppose the Manzullo polypropylene/polyester fiber bills (HR 4486 and HR 4487) as it is our understanding that Palmetto Synthetics produces those fibers and has sent in a letter of opposition. Let me know if you need further information from AMTAC on these. We're aiming to respond on Batches 3 and 4 by Monday, June 11th - please advise if you need our feedback prior to then. Thanks.

Sara

Hi Sara,

Per our conversation this morning, attached is a list of the miscellaneous tariff bills for which we are currently preparing reports. In column G, you will find the name of the ITC analyst assigned to each report. If any of your members wish to provide information or file support/opposition, they should contact the analyst directly. I will forward additional MTB lists as they come in and are assigned (we receive them in batches).
