Note:

1. Access to an electronic copy of this memorandum is available at http://www.usitc.gov/tariff_affairs/congress_reports/.
2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Synthetic silica gel (CAS No. 7631-86-9) (provided for in subheading 2811.22.10)

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

- Same
 Different (see Technical Comments section)

III. Other product information, including uses/applications and source(s) of imports

The subject product cited in the bill as written is silicon dioxide, or silica, which encompasses a wide variety of products. The product is used primarily in the production of glass. Other products made from silica include polymers; optical fibers for telecommunications; and whiteware ceramics. In 2011, the major sources of U.S. imports of this product were China, Japan, the United Kingdom, Sweden, and Germany (HTS subheading 2811.22.10).

The HTS subheading 2811.22.00 cited in the bill as written does not exist. Silicon dioxide is *eo nomine* at the six-digit level (HTS subheading 2811.22); the only form of silica under this subheading that is dutiable is synthetic silica gel (HTS subheading 2811.22.10). As such, the estimated values of dutiable imports during 2013-17 were derived from the total value of dutiable imports during 2007-11 under this subheading. The interested entity did not provide an estimate of projected annual values of dutiable imports of the subject product during 2013-17.

IV. Estimated effect on customs revenue

Subject product HTS subheading(s)	2811.22.10				
Item	2013	2014	2015	2016	2017
Col.1-general rate of duty or percentage point reduction (%)	3.7	3.7	3.7	3.7	3.7
Estimated value of <i>dutiable</i> imports (\$)	60,000,000	60,000,000	60,000,000	60,000,000	60,000,000
Customs revenue loss (\$)	2,220,000	2,220,000	2,220,000	2,220,000	2,220,000

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce
 Provided by industry sources
 Industry information
 Commission estimates

Duty reduction notes:

- This bill is not a duty reduction
 This bill is a temporary duty reduction. Rates are shown below.

Col.1-general duty rate (%) Temporary rate (%) Percentage point reduction (%)

V. Technical comments

The modified article description reflects both a change in the product described and a change in the HTS subheading.
