GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS

GENERAL INFORMATION

Background.--On September 16, 1983, the Department of Commerce issued an antidumping duty order on imports of greige polyester/cotton printcloth from China (48 F.R. 41614). On March 1, 2004, the Commission instituted a review pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time (69 F.R. 3661). If the Commission makes an affirmative determination, the order will remain in place. If the Commission makes a negative determination, the Department of Commerce will revoke the order.

Additional questionnaires will be supplied promptly upon request, or photocopies of the enclosed questionnaire(s) may be used. Address all correspondence to the United States International Trade Commission, Washington, DC 20436. Hearing-impaired individuals can obtain information regarding this review via the Commission's TDD terminal (202-205-1810).

Due date of questionnaire(s).--Return the completed questionnaire(s) to the United States International Trade Commission by no later than **February 3, 2005**. Although the enclosed postpaid envelope may be used to return the completed questionnaire, use of an overnight mail service may be necessary to ensure that your response actually reaches the Commission by **February 3, 2005**. If you do not use the enclosed envelope, please make sure the completed questionnaire is sent to the attention of **Gail Burns**. **Return only one copy of the completed questionnaire(s), but please keep a copy for your records so that you can refer to it if the Commission staff contacts you with any questions during the course of the review.**

Service of questionnaire response(s).--In the event that your firm is a party to this review, you are required to serve a copy of the questionnaire(s), once completed, on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties is maintained by the Commission's Secretary and may be obtained by calling 202-205-1803. A certificate of service must accompany the copy of the completed questionnaire(s) you submit (see 19 CFR § 207.7).

Confidentiality.--The commercial and financial data furnished in response to the enclosed questionnaire(s) that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, nonnumerical characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitted for good cause shown.

Verification.--The information submitted in the enclosed questionnaire(s) is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all your workpapers and supporting documents used in the preparation of the questionnaire response(s).

Release of information.--The information provided by your firm in response to the questionnaire(s), as well as any other business proprietary information submitted by your firm to the Commission in connection with the review, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this review or other import-injury investigations or reviews conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

INSTRUCTIONS

Answer all questions.--Do not leave any question or section blank unless a questionnaire expressly directs you to skip over certain questions or sections. If the answer to any question is "none," write "none." **If information is not readily available from your records in exactly the form requested, furnish carefully prepared estimates--designated as such by the letter "E"--and explain the basis of your estimates.** Answers to questions and any necessary comments or explanations should be supplied in the space provided or on separate sheets attached to the appropriate page of the questionnaire(s). If your firm is completing more than one questionnaire in connection with this review (i.e., a producer, importer, purchaser, and/or foreign producer questionnaire), you need not respond to duplicated questions in the questionnaires.

Consolidate all establishments in China.--Report the requested data for your establishment(s) located in China. **Firms operating more than one establishment should combine the data for all establishments into a single report.**

DEFINITIONS

Greige polyester/cotton printcloth of chief weight cotton.—Greige polyester/cotton printcloth, of chief weight cotton, unbleached and uncolored printcloth, other than the 80 x 80 type.¹ The term “printcloth” refers to plain woven fabric, not napped, not fancy or figured, of singles yarn, not combed, of average yarn number 43 to 68,² weighing not more than 6 ounces per square yard, of a total count of more than 85 yarns per square inch, of which the total count of the warp yarns per inch and the total count of the filling yarns per inch are each less than 62 percent of the total count of the warp and filling yarns per square inch. This merchandise is currently imported under statistical reporting number 5210.11.6060 of the Harmonized Tariff Schedule of the United States (HTS). The HTS statistical reporting number is provided for convenience and for Customs purposes; the written description remains dispositive as to the scope of the product coverage.

50/50 greige polyester/cotton printcloth.—For purposes of these questionnaires, a product known commercially as 50/50 greige polyester/cotton printcloth is the same product as greige polyester/cotton printcloth of chief weight cotton defined above, except that 50/50 greige polyester/cotton printcloth contains not less than 47 percent and not more than 53 percent, by weight, of cotton or polyester. Such fabrics may be imported under HTS statistical reporting numbers 5407.81.0030, 5513.11.0060, or other provisions.

Note: Some 50/50 greige polyester/cotton printcloth is also greige polyester/cotton printcloth of chief weight cotton. This would occur when the 50/50 greige polyester/cotton printcloth is over 50 percent (but not over 53 percent) cotton by weight.

Greige polyester/cotton printcloth.—For purposes of these questionnaires, when the term “greige polyester/cotton printcloth” appears by itself (i.e., not as part of the terms “greige polyester/cotton printcloth of chief weight cotton” or “50/50 greige polyester/cotton printcloth” as defined above), it refers only to both 50/50 greige polyester/cotton printcloth and greige polyester/cotton printcloth of chief weight cotton.

¹ At the time of the original investigation, 80 x 80 type printcloth was defined as printcloth of construction either having 80 warp yarns per inch and 80 filling yarns per inch or having 72 warp yarns per inch and 69 filling yarns.

² The average yarn number 43 to 68 is under the metric system which Customs has used since the conversion to the HTS from the former TSUS. Average yarn number 43 to 68 under the metric system translates to average yarn number 26 to 40 under the English system, the system which Customs used during the original investigation and until the conversion of the TSUS to the HTS. The average yarn count identified in previous scope definitions of the U.S. Department of Commerce was yarn number 26 to 40, as based on the English system of yarn number counts.
