

**GENERAL INFORMATION, INSTRUCTIONS, AND
DEFINITIONS FOR COMMISSION FOREIGN
PRODUCER/EXPORTER QUESTIONNAIRES**

CIRCULAR WELDED NON-ALLOY STEEL PIPE FROM CHINA

Investigation No. TA-421-6

Further information.--If you have any questions concerning the enclosed questionnaire(s) or other matters related to this investigation, you may contact the following member of the Commission's staff (fax 202-205-2217):

Fred Ruggles, investigator (202-205-3187; e-mail fred.ruggles@USITC.GOV).

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS

GENERAL INFORMATION

Background.--This investigation was instituted in response to a petition properly filed on August 2, 2005, by Allied Tube and Conduit Corp., Harvey, IL; IPSCO Tubulars, Inc., Camanche, IA; Maruichi American Corp., Santa Fe Springs, CA; Maverick Tube Corp., Chesterfield, MO; Sharon Tube Co., Sharon, PA; Western Tube Conduit Corp., Long Beach, CA; Wheatland Tube Co., Wheatland, PA., and the United Steelworkers of America, AFL-CIO, Pittsburgh, PA, on behalf of U.S. manufacturers of circular welded non-alloy steel pipe. Import relief may be imposed by the President on the subject imports as a result of this investigation if the Commission determines that imports of the subject circular welded non-alloy steel pipe from China are being imported in such increased quantities or under such conditions as to cause or threaten to cause market disruption to the domestic producers of the like or directly competitive products. The President may impose relief in the form of increased duties and/or other restrictions on imports of standard from China that are the subject of an affirmative determination.

Additional questionnaires will be supplied promptly upon request, or photocopies of the enclosed questionnaire(s) may be used. Hearing-impaired individuals can obtain information regarding this investigation via the Commission's TDD terminal (202-205-1810).

Due date of questionnaire(s).--Return the completed questionnaire(s) to Fred Ruggles at the United States International Trade Commission by no later than **August 18, 2005**. Return only one copy of the completed questionnaire(s), but please keep a copy for your records so that you can refer to it if the Commission staff contacts you with any questions during the course of the investigation.

Service of questionnaire response(s).--In the event that your firm is a party to this investigation, you are required to serve a copy of the questionnaire(s), once completed, on parties to the proceeding that are subject to administrative protective order (see 19 CFR §§ 206.47 and 206.17). A list of such parties is maintained by the Commission's Secretary and may be obtained by calling 202-205-1803. A certificate of service must accompany the copy of the completed questionnaire(s) you submit (see 19 CFR §§ 206.47 and 206.17).

Confidentiality and disclosure under APO.--Except as provided below, the commercial and financial data furnished in response to the enclosed questionnaire(s) that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law. Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, nonnumerical characterizations of numerical confidential business information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS

GENERAL INFORMATION--Continued

Confidentiality and disclosure under APO.--Continued

The information provided by your firm in response to the questionnaire(s), as well as any other confidential business information submitted by your firm to the Commission in connection with the investigation, may become subject to, and released under, the administrative protective order provisions of sections 206.47 and 206.17 of the Commission's Rules of Practice and Procedure (19 CFR §§ 206.47 and 206.17). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use solely in connection with this investigation; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, the confidential business information that you submit may be provided to the President and U.S. Trade Representative in a confidential version of the report that the Commission transmits to the President and the U.S. Trade Representative, should the Commission transmit a confidential version. Confidential business information that you submit may also be used in any other import injury investigations conducted by the Commission on the same or similar merchandise. Any such confidential business information will be deleted from the version of the report that the Commission releases to the public.

Information submitted in this questionnaire response and throughout this investigation may be used by the Commission, its employees, and contract personnel who are acting in the capacity of Commission employees, for developing or maintaining the records of this investigation or related proceedings for which this information is submitted, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Verification.--The information submitted in the enclosed questionnaire(s) is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all your workpapers and supporting documents used in the preparation of the questionnaire response(s).

Release of information.--The information provided by your firm in response to the questionnaire(s), as well as any other confidential business information submitted by your firm to the Commission in connection with the investigation, may become subject to, and released under, the administrative protective order provisions of sections 206.47 and 206.17 of the Commission's Rules of Practice and Procedure (19 CFR §§ 206.47 and 206.17). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use solely in connection with this investigation; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, the confidential business information that you submit may be provided to the President and U.S. Trade Representative, including in a confidential version of the report that the Commission transmits to the President, should the Commission transmit a confidential version. Any such confidential business information will be deleted from the version of the report that the Commission releases to the public.

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS

INSTRUCTIONS

Answer all questions.--Do not leave any question or section blank unless a questionnaire expressly directs you to skip over certain questions or sections. If the answer to any question is “none,” write “none.” **If information is not readily available from your records in exactly the form requested, furnish carefully prepared estimates--designated as such by the letter “E”--and explain the basis of your estimates.** Answers to questions and any necessary comments or explanations should be supplied in the space provided or on separate sheets attached to the appropriate page of the questionnaire(s). If your firm is completing more than one questionnaire in connection with this investigation (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions in the questionnaires.

Consolidate all establishments in China.--Report the requested data for your establishment(s) located in China. **Firms operating more than one establishment should combine the data for all establishments into a single report.**

DEFINITIONS

Circular welded non-alloy steel pipe.-- For purposes of this investigation, the subject product includes certain welded carbon quality steel pipes and tubes, of circular cross-section, with an outside diameter of 0.372 inches (9.45 mm) or more, but not more than 16 inches (406.4 mm), regardless of wall thickness, surface finish (black, galvanized, or painted), end finish (plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (ASTM, proprietary, or other), generally known as standard pipe and structural pipe (they may also be referred to as structural or mechanical tubing). The term carbon quality steel may include certain low alloy steel imported as other alloy steel pipes and tubes.

All pipe meeting the physical description set forth above that is used in, or intended for use in, standard and structural pipe applications is covered by the scope of this investigation. Standard pipe applications include the low-pressure conveyance of water, steam, natural gas, air and other liquids and gases in plumbing and heating systems, air conditioning units, automatic sprinkler systems, and other related uses. Standard pipe may also be used for light load-bearing and mechanical applications, such as for fence tubing, and as an intermediate product for protection of electrical wiring, such as conduit shells. Structural pipe is used in construction applications.

The imported products are currently provided for in the Harmonized Tariff Schedule of the United States (HTS) subheadings 7306.30.10 and 7306.30.50. Specifically, the various HTS statistical reporting numbers under which the subject standard pipe has been provided for since January 1, 1992, are as follows: 7306.30.1000, 7306.30.5025, 7306.30.5032, 7306.30.5040, 7306.30.5055, 7306.30.5085, and 7306.30.5090. Although the HTS category is provided for convenience and Customs purposes, the written description of the merchandise under investigation is dispositive.

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS--Continued

DEFINITIONS--Continued

Pipe multiple-stenciled to the ASTM A-53 specification and to any other specification, such as the API-5L or 5L X-42 specifications, or single-certified pipe that enters under HTS subheading 7306.10.10, is covered by this investigation when used in, or intended for use in, one of the standard pipe applications listed above, regardless of the HTS category in which it is entered. Pipe shells that enter the United States under HTS subheading 7306.30.50, including HTS statistical reporting number 7306.30.5028, are also covered by this investigation. The investigation also covers pipe used for the production of scaffolding (but does not include finished scaffolding).

Products not included in this investigation are mechanical tubing (whether or not cold-drawn) provided for in HTS subheading 7306.30.50, tube and pipe hollows for redrawing provided for in HTS 7306.30.5035, or finished electrical conduit provided for in HTS 7306.30.5028. API line pipe used in oil or gas applications requiring API certifications is also not included in this investigation. Similarly, pipe produced to the API specifications for oil country tubular goods use are not included in this investigation.

Firm--An individual proprietorship, partnership, joint venture, association, corporation (including any subsidiary corporation), business trust, cooperative, trustee in bankruptcy, or receiver under decree of any court.

Related firm--A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

Establishment--Each facility of a firm in China involved in the production and/or exportation of innersprings (as defined above), including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

United States--For purposes of this investigation, the 50 States, Puerto Rico, the U.S. Virgin Islands, and the District of Columbia.

Importer--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing innersprings (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Average production capacity--The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS--Continued

DEFINITIONS--Continued

Production--All production in your establishment(s) in China, including production consumed internally within your firm and production for another firm under a toll agreement.

Shipments--Shipments of products produced in your establishment(s) in China. Include shipments to the contracting firm of product produced by your firm under a toll agreement.

Shipment quantities--Quantities reported should be net of returns.

Shipment values--Values reported (in U.S. dollars) should be net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods), f.o.b. your producing establishment(s) in China.

Types of shipments:

Home market sales--Shipments, other than internal consumption and transfers to related firms, within China.

Home market internal consumption/transfers to related firms--Shipments made to related firms in China, including product consumed internally by your firm.

Export shipments--Shipments to destinations outside China, including shipments to related firms.

Inventories--Finished goods inventory, not raw materials or work-in-progress.

Average production capacity--The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).
