GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS

GENERAL INFORMATION

Background.--These investigations were instituted in response to a petition filed on March 30, 2007 by GEO Specialty Chemicals, Inc., Lafayette, IN. Antidumping duties may be assessed on the subject imports as a result of this investigation if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of dumping.

Additional questionnaires will be supplied promptly upon request, or photocopies of the enclosed questionnaire(s) may be used. Address all correspondence to the United States International Trade Commission, Washington, DC 20436. Hearing-impaired individuals can obtain information regarding this investigation via the Commission's TDD terminal (202-205-1810).

Due date of questionnaire(s).--Return the completed questionnaire(s) to the United States International Trade Commission by no later than April 13, 2007. Although the enclosed postpaid envelope may be used to return the completed questionnaire, use of an overnight mail service may be necessary to ensure that your response (in hardcopy or on CD) actually reaches the Commission by April 13, 2007. If submitting in CD format, please also submit a hardcopy of the signed first page of the questionnaire. If you do not use the enclosed envelope, please make sure the completed questionnaire is sent to the attention of Russell Duncan. **Return only one copy of the completed questionnaire(s), but please keep a copy for your records so that you can refer to it if the Commission staff contacts you with any questions during the course of the reviews.**

Service of questionnaire response(s).--In the event that your firm is a party to this investigation, you are required to serve a copy of the questionnaire(s), once completed, on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties is maintained by the Commission's Secretary and may be obtained by calling 202-205-1803. A certificate of service must accompany the copy of the completed questionnaire(s) you submit (see 19 CFR § 207.7).

Confidentiality.--The commercial and financial data furnished in response to the enclosed questionnaire(s) that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, nonnumerical characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in the enclosed questionnaire(s) is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all your workpapers and supporting documents used in the preparation of the questionnaire response(s).

Release of information.--The information provided by your firm in response to the questionnaire(s), as well as any other business proprietary information submitted by your firm to the Commission in connection with the investigation, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this investigation or other import-injury investigations conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

INSTRUCTIONS

Answer all questions.--Do not leave any question or section blank unless a questionnaire expressly directs you to skip over certain questions or sections. If the answer to any question is "none," write "none." If information is not readily available from your records in exactly the form requested, furnish carefully prepared estimates--designated as such by the letter "E"--and explain the basis of your estimates. Answers to questions and any necessary comments or explanations should be supplied in the space provided or on separate sheets attached to the appropriate page of the questionnaire(s). If your firm is completing more than one questionnaire in connection with this investigation (i.e., a producer, importer, purchaser, and/or foreign producer questionnaire), you need not respond to duplicated questions in the questionnaires.

Consolidate all establishments in India, Japan, or Korea.--Report the requested data for your establishment(s) located in India, Japan, or Korea. **Firms operating more than one establishment should combine the data for all establishments into a single report.**

DEFINITIONS

Glycine.--The imported product covered by these investigations is glycine, which in its solid (*i.e.*, crystallized) form is a free-flowing crystalline material, like salt or sugar. These investigations cover glycine in any form and purity level, regardless of additives. Glycine's chemical composition is $C_2H_5NO_2$ and generally is classified under subheading 2922.49.4020 of the Harmonized Tariff Schedule of the United States ("HTSUS").

In addition, precursors of dried crystalline glycine, including, but not limited to, glycine slurry (*i.e.*, glycine in a non-crystallized form) and sodium glycinate (chemical composition H_2NCH_2COONa .) are included in these investigations. Glycine slurry is classified under the same HTSUS as crystallized glycine (2922.49.4020) and sodium glycinate is classified under HTSUS 2922.49.8000.

Grades.--

Pharmaceutical-grade glycine.--A white, orderless, crystalline powder with a sweet taste, having an assay (glycine content) of 98.5 percent to 101.5 percent (dry basis), and with no more than 7 ppm chloride, no more than 65 ppm sulfate, and no more than 1 ppm heavy metals.

USP-grade glycine.--A white, orderless, crystalline powder with a sweet taste, having an assay (glycine content) of 98.5 percent to 101.5 percent (dry basis), and with no more than 70 ppm chloride, no more than 65 ppm sulfate, and no more than 20 ppm heavy metals, and not otherwise qualifying as pharmaceutical-grade glycine.

Technical-grade glycine.--A white, off-white, or slightly yellow crystalline powder, having an assay (glycine content) of 98.5 percent to 101.5 percent (dry basis), and with maximum chlorides of 0.4 percent, and not otherwise qualifying as USP-grade glycine.

Firm.--An individual proprietorship, partnership, joint venture, association, corporation (including any subsidiary corporation), business trust, cooperative, trustee in bankruptcy, or receiver under decree of any court.

Related firm.--A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

Establishment.--Each facility of a firm in India, Japan, or Korea involved in the production of glycine (as defined above), including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS--Continued

DEFINITIONS--Continued

United States.--For purposes of this investigation, the 50 States, Puerto Rico, the U.S. Virgin Islands, and the District of Columbia.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing glycine (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Average production capacity.--The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

Production.--All production in your establishment(s) in India, Japan, or Korea, including production consumed internally within your firm.

Shipments.--Shipments of products produced in your establishment(s) in India, Japan, or Korea. Quantities reported should be net of returns.

Home market commercial shipments.--Shipments, other than internal consumption and transfers to related firms, within India, Japan, or Korea.

Home market internal consumption/transfers to related firms.--Shipments made to related firms in India, Japan, or Korea, including product consumed internally by your firm.

Export shipments.--Shipments to destinations outside India, Japan, or Korea, including shipments to related firms.

Inventories.--Finished goods inventory, not raw materials or work-in-progress.
