

DATES: Submit written comments on this information collection request on or before April 6, 2015.

ADDRESSES: Send written comments or requests for copies of the forms to Paul Matuska, Water Accounting and Verification Group Manager, LC-4200, Bureau of Reclamation, Lower Colorado Regional Office, P.O. Box 61470, Boulder City, NV 89006-1470; or by email to pmataska@usbr.gov.

FOR FURTHER INFORMATION CONTACT: Paul Matuska at (702) 293-8164.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Bureau of Reclamation is requesting approval for the collection of data from well and river-pump owners and operators along the lower Colorado River in Arizona, California, and Nevada.

I. Abstract

Pursuant to the Boulder Canyon Project Act (Pub. L. 70-642, 45 Stat. 1057), all diversions of mainstream Colorado River water must be in accordance with a Colorado River water entitlement. The Consolidated Decree of the United States Supreme Court in *Arizona v. California*, 547 U.S. 150 (2006) requires the Secretary of the Interior to account for all diversions of mainstream Colorado River water along the lower Colorado River, including water drawn from the mainstream by underground pumping. To meet the water entitlement and accounting obligations, an inventory of wells and river pumps is required along the lower Colorado River, and the gathering of specific information concerning these wells.

II. Data

OMB Control Number: 1006-0014.

Title: Lower Colorado River Well Inventory.

Form Number: LC-25.

Frequency: These data are collected only once for each well or river-pump owner or operator as long as changes in water use, or other changes that would impact contractual or administrative requirements, are not made. A respondent may request that the data for its well or river pump be updated after the initial inventory.

Respondents: Well and river-pump owners and operators along the lower Colorado River in Arizona, California, and Nevada. Each diverter (including well pumpers) must be identified and their diversion locations and water use determined.

Estimated Completion Time: An average of 20 minutes is required to

interview individual well and river-pump owners or operators.

Estimated Annual Total Number of Respondents: 1,500.

Estimated Number of Responses per Respondent: 1.0.

Estimated Total Number of Annual Responses: 1,500.

Estimated Total Annual Burden on Respondents: 500 hours.

IV. Request for Comments

We invite your comments on:

(a) whether the collection of information is necessary for the proper performance of our functions, including whether the information will have practical use;

(b) the accuracy of our estimated time and cost burden of the collection of information, including the validity of the methodology and assumptions used;

(c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and

(d) ways to minimize the burden of the collection of information on respondents, including increased use of automated collection techniques or other forms of information technology.

We will summarize all comments received regarding this notice. We will publish that summary in the **Federal Register** when the information collection request is submitted to OMB for review and approval.

V. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: December 17, 2014.

Terrance J. Fulp,

Regional Director, Lower Colorado Region.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 731-TA-986-987 (Second Review)]

Ferrovandium From China and South Africa; Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)), that revocation of the antidumping duty orders on ferrovandium from China and South Africa would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on November 1, 2013 (78 FR 65706) and determined on February 4, 2014 that it would conduct full reviews (79 FR 9000, February 14, 2014). Notice of the scheduling of the Commission's reviews and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on July 10, 2014 (79 FR 39411). The hearing was held in Washington, DC, on November 20, 2014, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission completed and filed its determinations in these reviews on January 28, 2015. The views of the Commission are contained in USITC Publication 4517 (January 2015), entitled *Ferrovandium from China and South Africa: Investigation Nos. 731-TA-986-987 (Second Review)*.

By order of the Commission.

Issued: January 28, 2015.

Lisa R. Barton,

Secretary to the Commission.
