

combination of nonlethal actions, including the construction of large-scale deer exclosures (fencing) for the purposes of forest regeneration. In addition, nonsurgical reproductive control of does would be used to restrict population growth when this technology meets certain criteria. Alternative C (Lethal Actions) would include all actions described under Alternative A, and would add lethal deer management actions (sharpshooting with firearms or capture and euthanasia of individual deer) to reduce the herd size.

Alternative D (Combined Lethal and Non-lethal Actions) is the NPS preferred alternative. Alternative D would include all actions described under Alternative A, and would incorporate a combination of lethal and nonlethal actions from Alternatives B and C. These actions would include the reduction of the deer herd through sharpshooting with firearms or capture and euthanasia and nonsurgical reproductive control of does with an acceptable reproductive control agent to maintain the population.

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-MWR-IATR-13283; PPMWROW2/PPMPSAS1Y.YP0000]

Notice of Availability of the Record of Decision for the General Management Plan/Environmental Impact Statement for the Ice Age National Scenic Trail Interpretive Site, Wisconsin

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: The National Park Service (NPS) announces the availability of the Record of Decision (ROD) for the General Management Plan/Environmental Impact Statement (GMP/EIS) for the Ice Age National Scenic Trail (Trail) Interpretive Site, Wisconsin.

ADDRESSES: Copies may be picked up in person or by mailing a request in writing to the Ice Age National Scenic Trail Headquarters Office, 700 Rayovac Drive, Suite 100, Madison, WI 53711, by telephone at (608) 441-5610, or by email at:

IATR_Superintendent@nps.gov. Copies of the ROD are available at the NPS Planning, Environment, and Public Comment Web site <http://www.parkplanning.nps.gov/iatr> or at the Trail Web site <http://www.nps.gov/iatr>.

FOR FURTHER INFORMATION CONTACT: Superintendent John Madden, at the address above or by telephone at (608) 441-5610.

SUPPLEMENTARY INFORMATION: We, the NPS, have issued a ROD for the GMP/EIS for the Trail Interpretive Site near Cross Plains, Wisconsin. As soon as practicable, the NPS will begin to implement the selected alternative.

We have selected Alternative 5 as described in the Final GMP/EIS. The selected alternative (which was the preferred alternative) will provide visitors with interpretation of the evolution of the complex from the last glacial retreat and opportunities to enjoy appropriate low-impact outdoor recreation. Ecological resources will largely be managed to reveal the glacial landscape. The most sensitive ecological areas will be carefully protected, and visitor access will be highly controlled in these areas. Visitors will experience a wide variety of indoor and outdoor interpretive programming. Under this alternative, the Ice Age Complex will serve as the headquarters for the Trail.

Other alternatives considered included Alternative 1, no action, which described a continuation of existing management at the Trail and provides a

baseline for evaluating the changes and impacts of the other alternatives. In Alternative 1, the Ice Age Complex would have remained undeveloped for visitor use and minimally maintained. The segment of the Trail would still have been built (by the Ice Age Trail Alliance) within the identified corridor under this alternative, but other trails would not have been constructed.

Alternative 2 emphasized ecosystem management and restoration. Vegetation would have been restored to conditions prior to the settlement of Europeans and managed to reveal glacial landscapes. Visitors would have experienced a sense of remoteness through hikes and trails.

Alternative 3 emphasized interpretation and education on how the Ice Age Complex evolved over time since the retreat of the last glacier. Throughout most of the complex, ecological resources would have been managed to reveal the glacial landscape. Visitors would have had an opportunity to experience a wide variety of resources, both ecological and geological, as well as remnants of human use of the site. The visitor experience would have involved sheltered and indoor settings at the core of the property and hiking throughout most other areas of the site. The Ice Age Complex would have served as the headquarters for the Trail.

Alternative 4 emphasized low impact outdoor recreation experiences in support of, and compatible with, preserving and interpreting the glacial significance of the complex and restoring and managing the ecosystem. Visitors would have experienced resources in diverse ways, participating in interpretive programming in indoor and outdoor settings. The Ice Age Complex would have served as the headquarters for the Trail under this alternative.

Raw Flexible Magnets From China and Taiwan; Institution of Five-Year Reviews

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)) (the Act) to determine whether revocation of the countervailing duty order on raw flexible magnets from China and the revocation of the antidumping duty orders on raw flexible magnets from China and Taiwan would be likely to lead to continuation or recurrence of material injury. Pursuant to section 751(c)(2) of the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission;¹ to be assured of consideration, the deadline for responses is September 3, 2013. Comments on the adequacy of responses may be filed with the Commission by October 15, 2013. For further information concerning the conduct of these reviews and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207), as most recently amended at 74 FR 2847 (January 16, 2009).

DATES: *Effective Date:* August 1, 2013.

FOR FURTHER INFORMATION CONTACT:

Mary Messer (202–205–3193), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for these reviews may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On September 17, 2008, the Department of Commerce published antidumping and countervailing duty orders on imports of raw flexible magnets from China and an antidumping duty order on raw flexible

magnets from Taiwan (73 FR 53847–53850). The Commission is conducting reviews to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The *Subject Countries* in these reviews are China and Taiwan.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations, the Commission defined a single *Domestic Like Product* as coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations, the Commission defined a single *Domestic Industry* consisting of the U.S. producers of raw flexible magnets. The Commission did not include fabricators in the domestic industry in the original determinations.

(5) The *Order Date* is the date that the antidumping and countervailing duty orders under review became effective. In these reviews, the *Order Date* is September 17, 2008.

(6) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the reviews and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the reviews as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the

Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the reviews.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation. The Commission's designated agency ethics official has advised that a five-year review is not considered the "same particular matter" as the corresponding underlying original investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 73 FR 24609 (May 5, 2008). This advice was developed in consultation with the Office of Government Ethics. Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Carol McCue Verratti, Deputy Agency Ethics Official, at 202–205–3088.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in these reviews available to authorized applicants under the APO issued in the reviews, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the reviews. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with these reviews must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other

reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such comments is October 15, 2013. Please be aware that the Commission's rules with respect to electronic filing have been amended. The amendments took effect on November 7, 2011. See 76 FR 61937 (Oct. 6, 2011) and the newly revised Commission's Handbook on E-Filing, available on the Commission's Web site at <http://edis.usitc.gov>. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the reviews you do not need to serve your response).

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determinations in the reviews.

that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the *Domestic Like Product* produced in the United States, *Subject Merchandise* produced in each *Subject Country*, and such merchandise from other countries.
