**SUPPLEMENTARY INFORMATION:****I. Abstract**

Under the provisions of the Alaska National Interest Lands Conservation Act (ANILCA), subsistence harvests by local rural residents are considered to be the priority consumptive use of park resources. Community harvest assessments will support the NPS management priorities at GAAR, WRST, YUCH, WEAR, and ANIA that address consumptive use of park resources by NPS-qualified subsistence users. The information will be used by the NPS, the Federal Subsistence Board, the State of Alaska, and local/regional advisory councils in making recommendations and making decisions regarding the management of fish, wildlife, and plants in the region (e.g., seasons, harvest limits, and which communities have

customarily and traditionally used various resources). The survey will document subsistence activities over the past year (January through December) for each sampled household. The head of household will be asked to respond for each household.

Comments are due on or before September 8, 2015 and may not contain new factual information. Any person that is neither a party to the five-year reviews nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the reviews by September 8, 2015. However, should the Department of Commerce extend the time limit for its completion of the final results of its reviews, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. Please be aware that the Commission's rules with respect to filing have changed. The most recent amendments took effect on July 25, 2014.
