

administrative review of the antidumping duty order on small diameter carbon and alloy seamless standard, line, and pressure pipe (under 4½ inches) from Japan with respect to Denka, Ebara, JFE Steel, Kaneka, Kawasaki Steel, Maruichi, Metal One, N&S, Nippon Steel, NKK, Okaya, Sumitomo Corp., Sumitomo Metal, Taiheiyo, V&C, Vallourec Solucoes, and Yamashin.³ On September 4, 2019, U.S. Steel withdrew its request for an administrative review with respect to all of the companies for which it had requested a review.⁴

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party or parties that requested a review withdraws the request within 90 days of the publication date of the notice of initiation of the requested review. U.S. Steel withdrew its request for review of Denka, Ebara, JFE Steel, Kaneka, Kawasaki Steel, Maruichi, Metal One, N&S, Nippon Steel, NKK, Okaya, Sumitomo Corp., Sumitomo Metal, Taiheiyo, V&C, Vallourec Solucoes, and Yamashin. U.S. Steel withdrew its request within 90 days of the publication date of the notice of initiation. No other parties requested an administrative review of the order. Therefore, in accordance with 19 CFR 351.213(d)(1), we are rescinding this review in its entirety.

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries of small diameter carbon and alloy seamless standard, line, and pressure pipe (under 4½ inches) from Japan. Antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after the date of publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.42(f)(2) to file a certificate regarding the reimbursement of AD duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of AD duties occurred and the subsequent assessment of doubled AD duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to all parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Dated: October 21, 2019.

Fresh Tomatoes From Mexico: Final Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that fresh tomatoes from Mexico are being, or are likely to be, sold in the United States at less than fair value (LTFV). The final estimated weighted-average dumping margins are listed below in the “Final Determination” section of this notice.

DATES: Applicable October 25, 2019.

SUPPLEMENTARY INFORMATION:

Background

On May 7, 2019, Commerce terminated the *2013 Suspension Agreement*¹ on fresh tomatoes from Mexico and continued the LTFV investigation of fresh tomatoes from Mexico.² The original period of investigation was March 1, 1995 through February 29, 1996. Due to the unusual procedural posture of this proceeding, in which we terminated a suspension agreement and continued an investigation that covers a period of investigation that dates back more than 23 years, Commerce determined to request information corresponding to the most recent four full quarters, *i.e.*, April 1, 2018 through March 31, 2019.³ Based on the unusual procedural posture, we also found it appropriate to reconsider respondent selection.⁴ On May 24, 2019, we selected Bioparques de Occidente, S.A. de C.V. (Bioparques), Ceuta Produce, S.A. de C.V. (Ceuta), and Negocio Agricola San Enrique, S.A. de C.V. (San Enrique) for individual examination in this continued investigation.⁵ On July 23, 2019, Commerce issued the post-preliminary decision based on the information requested from, and provided by, Bioparques, Ceuta, and San Enrique.⁶ Commerce received case and rebuttal briefs on August 30, 2019, and September 4, 2019, respectively.⁷

Red Sun Farms submitted its original case brief on August 30, 2019, which we rejected on September 9, 2019, for containing untimely filed new factual information. See Commerce’s Letter to Red Sun Farms dated September 9, 2019. Red Sun Farms submitted its partially redacted case brief on September 11, 2019.

Continuation of Investigation

On September 19, 2019, Commerce and representatives of the signatory producers/exporters accounting for substantially all imports of fresh tomatoes from Mexico signed an agreement to suspend this investigation (the 2019 Agreement).⁸ On October 11, 2019, the Florida Tomato Exchange, a member of the U.S. petitioning industry, timely requested that Commerce continue this investigation.⁹ On October 15, 2019, Red Sun Farms also timely requested that Commerce continue this investigation.¹⁰ Commerce has continued and completed this investigation in accordance with section 734(g) of the Tariff Act of 1930, as amended (the Act).

Scope of the Investigation

For a complete description of the scope of this investigation, see the "Scope of the Investigation" in Appendix I of this notice.

Scope Comments

In the post-preliminary decision, we addressed comments concerning the scope of this investigation.¹¹ No party filed comments in its case brief concerning the scope of the investigation. Therefore, we have made no changes to the scope of the investigation in the final determination.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this investigation are addressed in the Issues and Decision Memorandum, which is hereby adopted by this notice.¹² A list of the issues raised is attached to this notice as Appendix II. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). The signed Issues and Decision Memorandum and the electronic version are identical in content.

Verification

As provided in section 782(i) of the Act, in August 2019, Commerce verified the sales and cost data reported by Bioparques, Ceuta, and San Enrique. We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by the respondents.

Changes Since the Post-Preliminary Analysis

Based on the respondents' supplemental responses and revised sales and cost databases, our findings at verification, and our analysis of the comments received, we made certain changes to the margin calculations in the post-preliminary decision. For a discussion of these changes, see the Issues and Decision Memorandum. We have also revised the all-others rate.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that Commerce estimate the weighted-average dumping margin for all other producers or exporters not subject to individual examination equal to the weighted average of the estimated weighted-average dumping margins of the individually examined respondents, excluding any rates that are zero, *de minimis*, or based entirely on facts available pursuant to section 776 of the Act. For purposes of this final determination, we are assigning 20.91 percent as the all-others rate, which is based on the weighted average of the estimated dumping margins calculated for the three individually examined respondents whose margins are above *de minimis* in the continued investigation.¹³

Final Determination

Commerce determines that the final weighted-average dumping margins are as follows:

¹³ See Memorandum, "Fresh Tomatoes from Mexico: Final All-Others Rate," dated concurrently with this notice.

Producer/exporter	Weighted-average dumping margin (percent)
Bioparques de Occidente, S.A. de C.V./Agricola La Primavera, S.A. de C.V. ¹⁴	30.48
Ceuta Produce, S.A. de C.V./Rancho La Memoria, S. de R.L. de C.V. ¹⁵	3.91
Negocio Agrícola San Enrique, S.A. de C.V.	17.02
All Others	20.91

Disclosure

We intend to disclose the calculations performed to interested parties within five days of the public announcement of this final determination consistent with 19 CFR 353.20(e) (1996).

Suspension of Liquidation

As noted above, on September 19, 2019, Commerce and representatives of the signatory producers/exporters accounting for substantially all imports of fresh tomatoes from Mexico signed the 2019 Agreement. Consistent with section 734(h)(3) of the Act, the suspension of liquidation ordered following the May 7, 2019 continuation of the investigation remained in effect.¹⁶ No interested party requested a review of the suspension of the investigation by the U.S. International Trade Commission (ITC) under section 734(h) of the Act. Therefore, in accordance with section 734(h)(3) of the Act, and because the 2019 Agreement remains in force, Commerce is instructing U.S. Customs and Border Protection to terminate the suspension of liquidation of all entries of fresh tomatoes from Mexico, entered, or withdrawn from warehouse, for consumption on or after May 7, 2019, and to liquidate the entries without regard to antidumping duties (*i.e.*, to refund any cash deposits and release any bonds for such entries).

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the ITC of the final affirmative determination of sales

¹⁴ In this investigation we have determined that Bioparques de Occidente, S.A. de C.V. and Agrícola La Primavera, S.A. de C.V. are affiliated and should be treated as a single entity. See Issues and Decision Memorandum at 4–6.

¹⁵ In this investigation we have determined that Ceuta Produce, S.A. de C.V. and Rancho La Memoria, S. de R.L. de C.V. are affiliated and should be treated as a single entity. See Issues and Decision Memorandum at 4–6.

¹⁶ See 2019 Suspension Agreement, 84 FR at 49989 ("The suspension of liquidation ordered following the May 7, 2019 continuation of the investigation shall continue to be in effect, subject to section 734(h)(3) of the Act.")

at LTFV. Because the final determination in this investigation is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of fresh tomatoes from Mexico no later than 45 days after our final determination. If the ITC determines that material injury or threat of material injury does not exist, the 2019 Agreement will have no force or effect, and the investigation will be terminated.¹⁷ If the ITC determines that material injury or threat of material injury does exist, the 2019 Agreement shall remain in force. Commerce will not issue an antidumping duty order so long as: (1) The 2019 Agreement remains in force; (2) the 2019 Agreement continues to meet the requirements of sections 734(c) and (d) of the Act; and (3) the parties to the 2019 Agreement carry out their obligations under the 2019 Agreement in accordance with its terms.¹⁸

Notification Regarding Administrative Protective Orders

This notice serves as a reminder to parties subject to an Administrative Protective Order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3).¹⁹ Timely notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

This determination and this notice are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act.

Dated: October 21, 2019.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The merchandise subject to the investigation is all fresh or chilled tomatoes (fresh tomatoes) which have Mexico as their origin, except for those tomatoes which are for processing. For purposes of this suspended investigation, processing is defined to include preserving by any commercial process, such as canning, dehydrating, drying, or the addition of chemical substances, or converting the

tomato product into juices, sauces, or purees. Fresh tomatoes that are imported for cutting up, not further processing (e.g., tomatoes used in the preparation of fresh salsa or salad bars), are covered by the investigation.

Commercially grown tomatoes, both for the fresh market and for processing, are classified as *Lycopersicon esculentum*. Important commercial varieties of fresh tomatoes include common round, cherry, grape, plum, greenhouse, and pear tomatoes, all of which are covered by this investigation.

Tomatoes imported from Mexico covered by this investigation are classified under the following subheading of the Harmonized Tariff Schedule of the United States (HTSUS), according to the season of importation: 0702. Although the HTSUS numbers are provided for convenience and customs purposes, the written description of the scope of this investigation is disposition.
