from the Government of Brazil (GOB), but we did not receive a substantive response from any other interested party in this proceeding. 4 On July 22, 2021, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties and that Commerce would conduct an expedited (120-day) sunset review of the order on CRS from Brazil, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(i)(I)(C)(2). 5 The final results of the expedited sunset review are currently due September 29, 2021.

Postponement of Expedited Sunset Review

Section 751(c)(3)(B) of the Act provides that Commerce may issue, without further investigation, a final determination based on the facts available, in accordance with section 776 of the Act within 120 days after the initiation of the review if interested parties provide inadequate responses. However, if Commerce determines that the review is extraordinarily complicated, section 751(c)(5)(B) of the Act allows Commerce to extend the time period for making its determination by not more than 90 days.

Commerce has determined that this CVD sunset review is extraordinarily complicated pursuant to sections 751(c)(5)(B) and (C) of the Act. Specifically, due to the number and complexity of the alleged countervailable subsidy programs being reviewed, in addition to the numerous arguments made by parties in their substantive responses, it is not practicable to complete the determination of this CVD sunset review within the original time limit (i.e., by September 29, 2021). Therefore, in accordance with section 751(c)(5)(B) of the Act, Commerce is postponing the deadline of the determination in this sunset review to no later than 210 days after the day on which this sunset review was initiated, i.e., December 28, 2021.

This notice is issued and published in accordance with sections 751(c)(3)(B) and (C) of the Act.

Certain Corrosion-Resistant Steel Products From Italy: Final Results of the Expedited First Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) finds that revocation of the countervailing duty (CVD) order on certain corrosion-resistant steel products (corrosion-resistant steel) from Italy would be likely to lead to continuation or recurrence of countervailing subsidies at the levels indicated in the “Final Results of Sunset Review” section of this notice.

SUPPLEMENTARY INFORMATION:

Background

On July 25, 2016, Commerce published in the Federal Register the CVD order on corrosion-resistant steel from Italy. 1 On June 1, 2021, Commerce published the notice of initiation of the first sunset review of the Order pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). 2 On June 14 and 16, 2021, Commerce received timely filed notices of intent to participate from Cleveland-Cliffs, Inc., Nucor Corporation, Steel Dynamics Inc., California Steel Industries, and U.S. Steel Corporation (collectively, the domestic interested parties), within the deadline specified in 19 CFR 351.218(d)(1)(I). The domestic interested parties claimed interested party status under section 771(9)(C) of the Act as producers of the domestic like product in the United States.

On July 1, 2021, Commerce received an adequate substantive response from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). 6 We received no substantive responses from any other interested party, including the Government of Italy, nor was a hearing requested. On July 22, 2021, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties. 3 As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(B)–(C), Commerce conducted an expedited (120-day) sunset review of the Order.

Scope of the Order

The products covered by this order are certain corrosion-resistant steel products. For a complete description of the scope of the Order, see Appendix I.

Analysis of Comments Received

All issues raised in this sunset review are addressed in the accompanying Issues and Decision Memorandum, 7 which is hereby adopted by this notice. micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum.

Furthermore, this scope also includes Advanced High Strength Steels (AHSS) and Ultra High Strength Steels (UHSS), both of which are considered high tensile strength and high elongation steels.

Subject merchandise also includes corrosion-resistant steel that has been further processed in a third country, including but not limited to annealing, tempering painting, varnishing, trimming, cutting, punching and/or slitting or any other processing that would not otherwise remove the merchandise from the scope of the Order if performed in the country of manufacture of the in-scope corrosion resistant steel.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Aleutian Islands Pollock Fishery Requirements

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the Federal Register on June 8, 2021 (86 FR 30443), during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Aleutian Islands Pollock Fishery Requirements.

OMB Control Number: 0648–0513.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 1.

Average Hours per Response: 16 hrs.

Total Annual Burden Hours: 16 hrs.

Needs and Uses: The National Marine Fisheries Service (NMFS), Alaska Regional Office, is requesting renewal of a currently approved information collection that contains the requirements for the annual participant letter for the Aleutian Islands pollock fishery.

Amendment 82 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) established a framework for the management of the Aleutian Islands subarea (AI) directed pollock fishery. The Aleut Corporation receives an annual AI pollock allocation for the purpose of economic development in Adak, Alaska. The Aleut Corporation is identified in Public Law 108–199 as a business incorporated pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.). Regulations implementing the FMP appear at 50 CFR part 679.

The Aleut Corporation's AI pollock fishery is set up so that harvesting pollock in the AI directed pollock fishery and processing pollock taken in the AI directed pollock fishery are authorized only for those harvesters and processors that are selected by The Aleut Corporation and approved by the NMFS Regional Administrator.

Each year and at least 14 days before harvesting pollock or processing pollock in the AI directed pollock fishery, The Aleut Corporation must submit its selections to NMFS. The information submitted by The Aleut Corporation consists of the names of the harvesting vessels and processors it has selected, the Federal fisheries permit numbers or Federal processor permit numbers of the participants, and the fishing year for which approval is requested.

On approval, NMFS sends The Aleut Corporation a letter that includes a list of the approved participants. A copy of this letter must be retained on board each participating vessel and on site each shoreside processor at all times.

This information collection is necessary for NMFS to obtain the list of vessels and processors selected by The Aleut Corporation to harvest and process its annual AI pollock allocation. The Aleut Corporation is required by Federal regulations at 50 CFR 679.4(m)(2) to provide its selected harvesters and processors to NMFS for approval. Without this information, NMFS would not know the participants selected by The Aleut Corporation and harvest rates could not be determined, which may result in allocations being exceeded.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Consolidated Appropriations Act of 2004; Magnuson-Stevens Fishery Conservation and Management Act.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0513.
