Certain New Pneumatic Off-the-Road Tires From India: Final Results of Expedited Sunset Review of the Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of this expedited sunset review, the U.S. Department of Commerce (Commerce) finds that revocation of the antidumping duty (AD) order on certain new pneumatic off-the-road tires (off-road tires) from India would be likely to lead to continuation or recurrence of dumping at the levels indicated in the “Final Results of Review” section of this notice.

DATES: Applicable June 7, 2022.

SUPPLEMENTARY INFORMATION:

Background

On February 16, 2022, Commerce published the notice of initiation of the sunset review of the AD order on off-road tires from India, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). In accordance with 19 CFR 351.218(d)(1)(i) and (ii), Commerce received notices of intent to participate in these sunset reviews from a domestic producer within 15 days after the date of publication of the Initiation Notice. The domestic producer claimed domestic interested party status under section 771(9)(C) of the Act, as a manufacturer of a domestic like product in the United States. On March 3, 2022, the domestic producer submitted a timely substantive response within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). Commerce did not receive a substantive response from any other interested parties with respect to the Order covered by this sunset review, nor was a hearing requested. On December 20, 2021, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted an expedited (120-day) sunset review of the Order.

Scope of the Order

The products covered by the Order are off-road tires from India. For a full description of the scope, see the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised in this sunset review are addressed in the Issues and Decision Memorandum, including the likelihood of continuation or recurrence of dumping and the magnitude of dumping likely to prevail if the Order were revoked. A list of topics discussed in the Issues and Decision Memorandum is included as the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov. A complete version of the Issues and Decision Memorandum can be accessed directly at https://access.trade.gov/public/FRNotices/ListLayout.aspx.

Final Results of Sunset Review

Pursuant to sections 751(c) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the Order would be likely to lead to continuation or recurrence of dumping, and that the magnitude of the dumping margins likely to prevail would be weighted-average margins of up to 3.67 percent.

Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a).
